**Popular Texts in English** Antonio Ballesteros González, 2001 This book comprises a collection of articles devoted to the academic study of popular texts in English Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art They take into serious consideration forms like horror literature the gothic fantasy detective fiction science fiction best sellers films and television series of different kinds among some other representations of what conservative scholars had been considering as marginal The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium      Emyr

Humphreys Diane Green, 2009-07-01 This book is an examination of the novels of Emyr Humphreys in the light of his ideas on Wales Welsh history Welsh culture and the importance of a separate Welsh identity It explores Humphreys practice in the light both of his own theories of culture and fiction and of a variety of models derived from postcolonial theory Its main conclusions are that there are two particular techniques the use of Welsh history and of Celtic myth that have proved particularly central to Humphreys purposes throughout his career These have consistently been the principal ways in which he foregrounds for the reader both what it means to be Welsh and the importance for the nation of maintaining an understanding of its heritage And both these key strategies of his fiction should it be argued be read as typical postcolonial devices
