Die Bergwerke zu Falun E.T.A. Hoffmann, 2012-09-20 Klassiker aus dem Jahr 2008 im Fachbereich Germanistik Neuere Deutsche Literatur Sprache Deutsch Abstract An einem heitern sonnenhellen Juliustage hatte sich alles Volk zu G thaborg auf der Reede versammelt Ein reicher Ostindienfahrer gl cklich heimgekehrt aus dem fernen Lande lag im Klippahafen vor Anker und lie die langen Wimpel die schwedischen Flaggen lustig hinauswehen 216 in die azurblaue Luft w hrend hunderte von Fahrzeugen B ten K nnen vollgepfropft mit jubelnden Seeleuten auf den spiegelblanken Wellen der G thaelf hin und her schwammen und die Kanonen von Masthuggetorg ihre weithallenden Gr e hin berdonnerten in das weite Meer Die Herren von der ostindischen Kompanie wandelten am Hafen auf und ab und berechneten mit l chelnden Gesichtern den reichen Gewinn der ihnen geworden und hatten ihre Herzensfreude daran wie ihr gewagtes Unternehmen nun mit jedem Jahr mehr und mehr gedeihe und das gute G thaborg im sch nsten Handelsflor immer frischer und herrlicher emporbl he Jeder sah auch deshalb die wackern Herrn mit Lust und Vergn gen an und freute sich mit ihnen denn mit ihrem Gewinn kam ja Saft und Kraft in das rege Leben der ganzen Stadt *German Romanticism and Its Institutions* Theodore Ziolkowski, 2021-03-09 Using an illuminating method that challenges the popular notion of Romanticism as aesthetic escapism Theodore Ziolkowski explores five institutions mining law madhouses universities and museums that provide the socio historical context for German Romantic culture He shows how German writers and thinkers helped to shape these five institutions all of which assumed their modern form during the Romantic period and how these social structures in turn contributed to major literary works through image plot character and theme Ziolkowski cannot fail to impress the reader with a breadth of erudition that

reveals fascinating intersections in the life and works of an artist He conveys the sense of energy and idealism that fueled Schiller and Goethe Fichte and Hegel Hoffmann and Novalis Emily Grosholz The Hudson Review This book should be put in the hands of every student who is seriously interested in the subject and I cannot imagine a scholar in the field who will not learn from it and be delighted with it Hans Eichner Journal of English and Germanic Philology Ziolkowski is among those who go beyond lip service to the historical and are able to show concretely the ways in which generic and thematic intentions are inextricably enmeshed with local and specific institutional circumstances Virgil Nemoianu MLN *Die Bergwerke zu Falun* Ernst Theodor Amadeus Hoffmann, 1930 *Imagination in German Romanticism* Jeanne Riou, 2004 In German Romanticism the imagination is the site of the encounter between the subject and its environment this book examines that encounter Dealing with both literary and philosophical texts it argues that the Romantic imagination performs a critique of rationalism In reflecting on the fragmentary the Romantics require the reader to both imagine and to question this as a hermeneutic process As such they understand writing to be an experiment in memory both individual and cultural This book is a study of the writings of E T A Hoffmann Novalis Tieck and also of the utopian project of Romanticism itself Methodologically it is informed by what Foucault termed the archaeological approach to discourse as well as by psychoanalysis and literary theory Examining points of contact as well of divergence between Kantian epistemology and Romantic nature philosophy it also highlights the correspondences between literature philosophy and science Above all it treats Romanticism as an experiment in the portrayal of ambivalent modern identity **Writing the Mountains** Jens Klenner, 2024-05-16 Writing the Mountains reconsiders the role of mountains in German language fiction from 1800 to the present and argues that in a range of texts from E T A Hoffmann's *Die Bergwerke zu Falun* 1819 to Elfriede Jelinek's *Die Kinder der Toten* 1995 and beyond mountains serve as dynamic spaces of material change that generate aesthetic and narrative innovation In contrast to dominant critical approaches to the Alpine landscape in literature in which mountain ranges often features as passive settings or which trace the influence of geographical and geological sciences in literary productions this study argues for the dynamic role in literature of presumably rigid mineral structures In German language fiction after 1800 the counter intuitive topology of rocky mountain ranges and unfathomable subterranean depths of the Alpine imaginary functions as a space of exception which appears to reconfirm and radically challenge the foundations of Enlightenment thought Writing the Mountains reads the mountain range as a rigid yet permeable liminal space Within this zone semiotic orders are unsettled as is the division between organic and inorganic between the human and the other
