New Model investigates existing group communication theories including organizational culture critical theory of organizations media ecology public rhetoric and cross cultural communication theory to establish their relevance in the context of the new model of public relations crisis Key concepts from existing public relations crisis theory are also discussed and validated in order to establish prevailing thought Through a case study of Malaysia Airlines MH370 involving a textual analyses of press communications on the Malaysia Airlines website this book scrutinises prevailing theory and definitions Most valuably this book proposes a new definition and model of public relations crisis alongside a suggested extension to existing crisis communication theory in the form of a hierarchy of publics to be addressed during crises This will help to address divergent publics with differing priorities in public relations crisis communication This book is of interest to students teachers researchers and practitioners of public relations communication media and marketing as well as professionals in the aviation industry and international relations

The Haitian Media System and its Main Characteristics: A Model of the Precarious System of Democratic Transition Wisnique Panier, 2023-06-26 This book presents a new theoretical model of a media system called the model of the precarious system of democratic transition The latter is based on fifteen parameters that characterize the Haitian media system and the environment in which it evolves This is a significant contribution to advancing knowledge in media studies and public communication in general After carefully analyzing different models of media systems existing in the scientific literature including the three models proposed by Halin and Mancini 2004 the author concludes that none of them applies to the typical Haitian case His study confirms the limitations of media system models resulting from Halin and Mancini's comparative studies in the context of Western countries It is a real reference document that gives an unprecedented reading grid to analyze the media systems of non Western countries particularly African or Latin American countries which have characteristics similar to that of Haiti Indeed in his doctoral thesis the author concluded that the Haitian media system has transformed over the past 60 years under the influence of three sets of factors linguistics democratic and technological Nevertheless he comes to the conclusion that the changes observed are only in the relations between the actors of the system without leading to a reconfiguration of the system The main characteristics of the Haitian media system and its environment remained unchanged from 1957 to 2022 So there is an inertia that keeps the system in an initial state
