Communitarian Foreign Policy Amitai Etzionis:

Communitarian Foreign Policy Nikolas K. Gvosdev, 2015-11-30 This volume establishes Amitai Etzioni's communitarian approach to international relations as a distinct school of American foreign policy thought. Nikolas K. Gvosdev systematically evaluates Etzioni's ideas, tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses. Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required. However, he argues against the imposition of Western policies on the rest of the world, which he sees as a recipe for conflict which the United States cannot afford. He warns against the post-Cold War triumphalism, arguing that it undercuts efforts to find necessary common ground with both Russia and China. An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations. The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats. *Communitarian Foreign Policy* Nikolas K. Communitarian Foreign Policy Nikolas K. Gvosdev, 2017-07-05 This volume establishes Amitai Etzioni's communitarian approach to international relations as a distinct school of American foreign policy thought. Nikolas K. Gvosdev systematically evaluates Etzioni's ideas, tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses. Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required. However, he argues against the imposition of Western policies on the rest of the world, which he sees as a recipe for conflict which the United States cannot afford. He warns against the post-Cold War triumphalism, arguing that it undercuts efforts to find necessary common ground with both Russia and China. An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations. The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats. From Empire to Community Amitai Etzioni, 2025-10-16 Whether one favors the U.S. global projection of force or is horrified by it, the question stands: where do we go from here? What ought to be the new global architecture? Amitai Etzioni follows a third way, drawing on both neoconservative and liberal ideas in this bold new look at international relations. He argues that a clash of civilizations can be avoided and that the new world order need not look like America. Eastern values, including spirituality and moderate Islam, have a legitimate place in the evolving global public philosophy. Nation-states, Etzioni argues, can no longer attend to rising transnational problems, from SARS to trade in sex slaves to cybercrime. Global civil society does help, but without some kind of global authority, transnational problems will overwhelm us. The building blocks of this new order can be found in the war against terrorism, multilateral attempts at

deproliferation humanitarian interventions and new supranational institutions e g the governance of the Internet Basic safety human rights and global social issues such as environmental protection are best solved cooperatively and Etzioni explores ways of creating global authorities robust enough to handle these issues as he outlines the journey from empire to community
