

Design and build a full-featured compact layout

Containing his signature, hand-drawn layout plans, this book by Iain Rice sets out to celebrate the compact model railroad. To effectively design and build a compact layout, you need to consider more than just size and shape. You also need to look at how best to use the available space. Iain explains the techniques for designing a compact layout and shows how to design a layout for operation. He provides practical room-sized designs that are achievable as well as appealing. These classic plans are featured:

- 1880s Nevada narrow gauge railroad
- 1940s-50s Arkansas short line
- World War II U.S. Army stateside base
- Upper New York bridge line
- Eastern coal railroad
- Midwestern branch line
- Northwestern waterfront railroad
