World War II Infantry Fire Support Tactics Gordon L. Rottman,2016-10-20 As infantry units advanced across Europe the only support they could rely on from day to day was that provided by the heavy weapons of their own units While thundering tanks struck fear into the hearts of their enemies it was the machine guns mortars and light cannon that proved to be most important causing the majority of casualties suffered during World War II Common principles were shared across units but the wide variety of weapons available to the different armies altered the way they were used in battle Focusing on the US British German and Soviet troops this title offers a comprehensive guide to infantry fire support tactics used through World War II Combat reports are complemented by specially commissioned artwork to show the way in which tactics varied and highlight how developments obliged opposing armies to review their own methods Finding Granddad's War Jeffrey Badger,2008-10-01 To discover the grandfather he never knew Badger began tracking down dozens of World War II veterans from his grandfather's unit Through their stories and recollections Badger began to reconstruct a very personal vision of his grandfather and the war Illustrations throughout **World War II Close Up: They Battled in Blizzards** Deborah Hopkinson,2025-09-02 Award winning author Deborah Hopkinson brings to life the stories of the men who fought in World War II's Battle of the Bulge attacked without warning weathering deadly blizzards and facing an enemy who had nothing to lose Perfect for fans of the I Survived series In the dead of winter deep in the Forest of Ardennes as the devastation of World War II drew to a close a desperate Nazi army launches a surprise attack on Allied forces in the early morning hours of December 16th As the ground is blown apart by mortar shells and an endless curtain of bullets rains down upon them the mostly young inexperienced and exhausted Allied soldiers must take up arms against the Nazis Blinded by dangerous blizzards and hampered by the rough terrain they fight to hold their positions until reinforcements arrive But deadly weather conditions and the surprise attack make matters difficult and soon the Allied forces are overwhelmed outmanned outgunned and underprepared As winter continues and the Battle of the Bulge rages on it will take an unprecedented combination of determination grit and unimaginable courage to thwart the Nazis's plans and defeat them once and for all Sibert Honor author Deborah Hopkinson transports readers to the blistering cold of Belgium's Ardennes Forest with this daring examination of one of the most infamous battles in history Drawing on the true accounts of soldiers and nurses and others who lived to tell the tale and featuring rare photographs Deborah Hopkinson seamlessly weaves together the stories of the men and women who risked everything They Battled in Blizzards is sure to thrill every history fan Scholastic Focus is the premier home of thoroughly researched beautifully written and thoughtfully designed works of narrative nonfiction aimed at middle grade and young adult readers These books help readers learn about the world in which they live and develop their critical thinking skills so that they may become dynamic citizens who are able to analyze and understand our past participate

systems hand to hand combat and more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home **Esthetic Experiments** Marek Wojtaszek, 2014-08-26

Contemporary American landscape is wrought with ongoing processes and phenomena of technicization observable at the intersections of multiple layers of society This book brings to attention their cultural and political aspects emphasizing timeliness and necessity of academic intervention into and evaluation of their specificity and ramifications Presenting critical and analytical account of cultural narratives which define speak of and use diverse technologies of writing sound media representations surveillance war the texts compiled in this volume investigate the coalescence between technological production on the one hand and the textual on the other The idea of the book responds to the current academic appeal inspired by postmodern questioning of the foundations and realized most importantly by deconstruction to dismantle one of the constitutive pillars of Western civilization namely between techne and episteme In their interpretative mode the texts proceed largely experimentally bridging the gap between techne and episteme In doing so they endeavor to reformulate and complexify an experience of American culture The book aims to clarify and exemplify that the junction of text and technology implies that meanings are embedded in a material Consequently the publication introduces and popularizes the assumption that American cultural experience emerges as a genuine experiment of an esthetic nature
