The Kurds and the Politics of Turkey Deniz Çifçi, 2019-08-08 The Kurds constitute the largest stateless nation in the world Their position in Turkey attracts attention both within the country and internationally particularly focusing on the demand for Kurdish independence Yet since the 1990s new Kurdish parties have formed within Turkey who have a variety of ideologies and demands that go beyond and differ in opinion on the question of independence Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands which over simplifies their position within the political backdrop of Turkey This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey Presently the Kurds political demands can be classified into four categories democratic autonomy their cultural rights to be granted federalism territorial autonomies and independence creation of a Kurdish nation state In a broad sense these models can also be ordered into two categories territorial political models federalism and independence and non territorial political models democratic autonomy and cultural rights Considering the diversity within the Kurdish community intertwinement of tribal ethnic and national identity and differences in their language religion and ideology there are several contributing factors for the emergence of the current varied political demands of Kurds By explaining variation among the Kurds political demands through close analysis of existing at emerging parties this study challenges a deterministic approach to the Kurds which currently dominates the discourse

The Politics of Contemporary Ethiopia Yohannes Gedamu, 2021-07-22 This book investigates the role of ethnic federalism in Ethiopian politics reflecting on a long history of division amongst the country's political elites The book argues that these patterns have enabled the resilience and survival of authoritarianism in the country and have led to the failure of

democratization Ethnic conflict in Ethiopia stretches back to the country's imperial history Competing nationalisms begin to emerge towards the end of the imperial era but were formalized by the Ethiopian People's Revolutionary Democratic Front EPRDF from the 1990s onwards Under the EPRDF ethnicity and language classifications formed the main organizing principles for political parties and organizations and the country's new federal arrangement was also designed along ethnic fault lines This book argues that this ethnic federal arrangement and the continuation of an elite political culture are major factors in explaining the continuation of authoritarianism in Ethiopia Focusing largely on the last 27 years under the EPRDF and on the political changes of the last few years but also stretching back to historical narratives of ethnic grievances and division this book is an important guide to the ethnic politics of Ethiopia and will be of interest to researchers of African politics authoritarianism and ethnic conflict

Historical Dictionary of Democracy Norman Abjorensen, 2019-06-15 Democracy is easy to talk about but hard to define in other than broad generalizations its history is a long complex and contested subject What this volume seeks to do is to explore the general evolution of political and social thinking that would eventually coalesce into what we now know as democracy for all its imperfections and shortcomings The question of just why some societies evolved into a democratic trajectory and others did not continues to engage the interest of historians political scientists sociologists and anthropologists Much conjecture surrounds the rise of certain elements we now recognize if not as democratic then proto democratic such as collective decision making constraints on the exercise of power and a degree of accountability of the ruler to the ruled If democracy in the sense of rule by the people has two essential qualities rule by the majority and the equal treatment of free citizens then its origins however feeble are to be found in these early examples of government Historical Dictionary of Democracy contains a chronology an introduction a glossary and an extensive

bibliography The dictionary section has over 600 cross referenced entries This book is an excellent resource for students researchers and anyone wanting to know more about democracy **The Making of Foreign Policy in Iraq** Zana Gulmohamad,2021-01-14 How is foreign policy made in Iraq Based on dozens of interviews with senior officials and politicians this book provides a clear analysis of the development of domestic Iraqi politics since 2003 Zana Gulmohamad explains how the federal government of Iraq and Kurdistan Regional Government KRG have functioned and worked together since toppling Saddam to reveal in granular detail the complexity of their foreign policy making The book shows that the ruling elites and political factions in Baghdad and in the capital of the Kurdistan Region Erbil create foreign policies according to their agendas The formulation and implementation of the two governments foreign policies is to a great extent uncoordinated Yet Zana Gulmohamad places this incoherent model of foreign policy making in the context of the country s fragmented political and social context and explains how Iraq s neighbouring countries Iran Turkey Saudi Arabia and Syria before the civil war have each influenced its internal affairs The book is the first study dedicated to the contemporary dynamics of the Iraqi state outside the usual focus on the great powers and it explains exactly how Iraqi foreign policy is managed alongside the country s economic and security interests Comparative Politics Daniele Caramani,2020 Comparative Politics provides a comprehensive introduction to political systems around the world It covers methods and theories the nation state institutions actors and processes policies and recent changes Introducing Comparative Politics Stephen Orvis,Carol Ann Drogus,2017-11-30 For Introducing Comparative Politics The Essentials the driving force is the pluralist objective stance on introducing students to core concepts in Comparative Politics Authors Stephen Orvis and Carol Ann Drogus introduce key comparative questions while providing equal strengths and weaknesses of commonly debated theories structures and beliefs that push students beyond memorization of country profiles and ever changing statistics and generate in class debate over key concepts used in the science of comparative politics While detailed case studies can go in depth on specific countries and political systems Introducing Comparative Politics The Essentials distills its country material into paragraph long examples woven seamlessly into the narrative of the text increasing diverse global awareness current event literacy and critical thinking skills
