Crivelli,David Chinitz,Tsung-mei Cheng,Rachel Meislin,2009-12-23 This book presents the healthcare reform experiences of six small to mid sized but dynamic economies spanning the Asia Pacific the Middle East and Europe Usually not given serious consideration in major international comparisons because of their small size each in fact provides a fascinating case study that illuminates the understanding of the dynamics of healthcare reform Although dissimilar in historical and cultural backgrounds they share some important features all faced very similar pressures for change in the 1970s and 1980s all considered a very similar range of policy options and all did not only discuss but actually implemented fundamental changes in their healthcare funding organization contracting and governance structures with strikingly different outcomes All of the authors have lived and worked in one or more of the countries studied in this volume The analytic frameworks they use reflect their broad range of professional and disciplinary backgrounds in health economics and political science Beyond mere descriptions of reform processes and superficial analyses based on aggregate data from the usual OECD or WHO sources they seek to understand and explain the variations in country experiences by examining the politico socio economic factors driving health reform as seen through the respective country lenses In coming together in this unique international collaboration they make an important contribution to the growing field of international comparative health policy studies Contributors Tsung Mei Cheng Princeton University USA David Chinitz The Hebrew University of Jerusalem Israel Luca Crivelli and Iva Bolgiani University of Lugano Switzerland Meng Kin Lim National University of Singapore Singapore Kieke G H Okma and Hans Maarse Maastricht University The Netherlands Toni Ashton and Tim Tenbenschel University of Auckland New Zealand

The New Politics of the NHS Rudolf Klein,Martin Powell,2025-11-25 Since it was first published more than 40 years ago The New Politics of the NHS has become established as the key overview of the NHS its processes and its paths of influence providing a clear easy to read guide to often complex debates This eighth edition continues to encompass both the background of the evolution of the NHS since its foundation while also providing a picture of its present and future in a more pluralistic and financially austere era in which deference to medical expertise continues to erode and information on
