Evaluation of Competence to Stand Trial Patricia Zapf, Ronald Roesch, 2008-12-19 Forensic mental health assessment FMHA has grown into a specialization informed by research and professional guidelines This series presents up to date information on the most important and frequently conducted forms of FMHA The 19 topical volumes address best approaches to practice for particular types of evaluation in the criminal civil and juvenile family areas Each volume contains a thorough discussion of the relevant legal and psychological concepts followed by a step by step description of the assessment process from preparing for the evaluation to writing the report and testifying in court

The Handbook of Forensic Rorschach Assessment Carl B. Gacono, 2008 The Handbook of Forensic Rorschach Assessment underscores the unique contribution the Rorschach makes to forensic practice All of the chapters include the expertise of a licensed practicing forensic psychologist and offer a systematic approach to personality assessment in presenting use of the Rorschach in specific forensic contexts

Assessing Negative Response Bias in Competency to Stand Trial Evaluations Steven J. Rubenzer, 2018-03-22 Evaluations of a defendant's competence to stand trial CST are probably the most frequently performed forensic evaluations with estimates in the United States ranging from 60 000 to 70 000 annually In order for CST evaluations to be considered thorough and accurate examiners must assess for possible lack of cooperation feigning or malingering the intentional production or gross exaggeration of false or grossly exaggerated physical or psychiatric symptoms motivated by external incentives Yet there are accounts that CST examiners often do not assess for negative response bias and even if they do nevertheless fail to identify a considerable number of examinees that do feign Assessing Negative Response Bias in Competency to Stand Trial Evaluations provides readers with a comprehensive guide to assessing whether a defendant has feigned mental impairment during a competency to stand trial evaluation or simply did not put forth his/her best effort This book reviews the literature on assessing feigning and negative response bias with particular focus on issues tests and data relevant to CST evaluations and examines proposed criteria and statistical methods of determining and classifying assessment results It introduces readers to aspects of the vibrant neuropsychological response style literature an area many forensic psychologists appear to have overlooked Additionally it offers recommendations for research and policy regarding the parameters of CST assessment

Handbook of Psychology, Forensic Psychology Irving B. Weiner, Randy

K. Otto, 2012-10-23 Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do. This award-winning twelve-volume reference covers every aspect of the ever-fascinating discipline of psychology and represents the most current knowledge in the field. This ten-year revision now covers discoveries based in neuroscience, clinical psychology's new interest in evidence-based practice and mindfulness, and new findings in social, developmental, and forensic psychology. *Learning Forensic Assessment* Rebecca Jackson, Ronald Roesch, 2015-10-05 Major developments in the field since the publication of *Learning Forensic Assessment* are integrated in this revised edition, including revised editions of the DSM-5, HCR-20 scale, and child custody guidelines. This textbook is designed for graduate students learning forensic assessment and psychologists coming to forensic practice later in their careers. It is organized around five broad areas: Professional and Practice Issues, Adult Forensic Assessment, Juvenile Forensic Assessment, Civil Forensic Assessment, and Communicating Your Findings. Each chapter begins with a strong teaching and learning foundation. The latter part of each chapter is assessment-specific, covering available assessment measures and approaches to assessment. The authors go well beyond simple descriptions of assessment measures and provide a conceptual discussion of the evaluation process that helps the reader understand how assessment measures fit into the overall evaluation process. The evaluation component is geared toward assessing the important aspects of the construct as laid out in the early part of each chapter. Each chapter then concludes with a case example to illustrate the measures and techniques described.

Handbook of Forensic Neuropsychology, Second Edition Lawrence C. Hartlage, Arthur MacNeill Horton, 2010-02-18 This book brings together excellent contributions spanning the historic basis of neuropsychology in forensic practice, ethical and legal issues, and practical instruction. The editors have done an outstanding job in providing us with a volume that represents state-of-the-art in forensic neuropsychology. This volume also will be useful for graduate students, fellows, and practitioners in clinical neuropsychology. Igor Grant, MD, Executive Vice Chair, UCSD Department of Psychiatry. This book serves as an updated, authoritative, contemporary reference work intended for use by forensic neuropsychologists, psychiatrists, neurologists, neurosurgeons, pediatricians, attorneys, judges, law students, police officers, special educators, and clinical and school psychologists among other professionals. This book discusses the foundations of forensic neuropsychology, ethical, legal issues, practice issues, and special areas and populations. Key topics discussed include the principles of brain structure and function, history of clinical neuropsychology, neuropsychology of intelligence, normative and scaling issues, and symptom validity testing and neuroimaging. Special areas and populations will include disability and fitness for duty evaluations, aging and dementia, children and adolescents, autism spectrum disorders, substance abuse, and Neurotoxicology. A concluding section focuses on the future of forensic neuropsychology. Evaluating Competencies Thomas Grisso, 2006-01-27 As in its first edition, this book offers a conceptual model for understanding the nature of legal

competencies The model is interpreted to assist mental health professionals in designing and performing assessments for legal competencies defined in criminal and civil law and to guide research that will improve the practice of evaluations for legal competencies A special feature is the book's evaluative review of specialized forensic assessment instruments for each of several legal competencies Three fourths of the 37 instruments reviewed in the second edition are new and thus were not reviewed in the first edition Application of the assessment model and reviews of instruments are provided for six areas of legal competence Competence to Stand Trial Waiver of Rights to Silence and Legal Counsel Not Guilty by Reason of Insanity Parenting Capacity Determination of Child Custody Guardianship and Conservatorship and Competence to Consent to Treatment
