Data Communications AND Networking

A globe showing the Earth with green landmasses and blue oceans. Overlaid on the globe are several glowing, multi-colored lines (red, green, blue, yellow) that represent data paths or network connections. The lines curve around the globe, suggesting global connectivity. A semi-transparent white rectangular box is centered over the globe, containing the text 'EDUTAKERS.COM' in blue capital letters.

Handbook of AI-Based Mechatronics Systems and Smart Solutions in Industrial

Automation Pushpalatha Naveenkumar, Vandana Sharma, Gunapriya Devarajan, Azween Abdullah, Ahmed A.

Elngar, 2025-09-02 Artificial intelligence AI and mechatronics are booming areas where most of the industrial sectors are becoming smart nowadays This handbook includes material of multidisciplinary content from the AI mechanical and electronics engineering domains among others It gives insights into various application sectors discussing current global developments in mechatronics employing AI technology and addressing the complexity of current issues and the effects of diverse mechatronics systems Handbook of AI Based Mechatronics Systems and Smart Solutions in Industrial Automation focuses on system automation predictive analysis preventive analysis and real time decision making systems for next generation automation It discusses the advancements of mechatronics systems using AI applications along with the global approach toward smart industrial automation and presents the impact of AI on today s work of autonomous and industrial automation The book discusses future research potential and is beneficial to manufacturing healthcare and finance disputes while it offers AI algorithms to analyze large amounts of data and identifies patterns trends and anomalies for accurate predictions and optimization processes The handbook also addresses use cases and case studies related to AI in mechatronics along with applications Scholars in the field of AI in mechatronics and related applications will find this book useful In particular attention is drawn to both fundamental ideas and important practical contexts Readers interested in the most recent findings in the field of problem oriented processing approaches in mechatronics including those in academia data science industry research and graduate and undergraduate students will find this fascinating handbook extremely interesting

Learning Management System Technologies and Software Solutions for Online Teaching: Tools and

Applications Kats, Yefim, 2010-05-31 This book gives a general coverage of learning management systems followed by a comparative analysis of the particular LMS products review of technologies supporting different aspect of educational

process and the best practices and methodologies for LMS supported course delivery Provided by publisher *Middleware Solutions for Wireless Internet of Things* Paolo Bellavista, Carlo Giannelli, Sajal K. Das, Jiannong Cao, 2019-07-15 The proliferation of powerful but cheap devices together with the availability of a plethora of wireless technologies has pushed for the spread of the Wireless Internet of Things WIoT which is typically much more heterogeneous dynamic and general purpose if compared with the traditional IoT The WIoT is characterized by the dynamic interaction of traditional infrastructure side devices e.g. sensors and actuators provided by municipalities in Smart City infrastructures and other portable and more opportunistic ones such as mobile smartphones opportunistically integrated to dynamically extend and enhance the WIoT environment A key enabler of this vision is the advancement of software and middleware technologies in various mobile related sectors ranging from the effective synergic management of wireless communications to mobility adaptivity support in operating systems and differentiated integration and management of devices with heterogeneous capabilities in middleware from horizontal support to crowdsourcing in different application domains to dynamic offloading to cloud resources only to mention a few The book presents state of the art contributions in the articulated WIoT area by providing novel insights about the development and adoption of middleware solutions to enable the WIoT vision in a wide spectrum of heterogeneous scenarios ranging from industrial environments to educational devices The presented solutions provide readers with differentiated point of views by demonstrating how the WIoT vision can be applied to several aspects of our daily life in a pervasive manner
