Communist Neo Traditionalism Work And Authority In Chinese Industry Paperback August 18 1988:

Post-communist Studies And Political Science Jr. Fleron, Erik P Hoffmann, 2019-08-15 Serious stock taking is in progress now among practitioners of what has been called Sovietology meaning studies of the Union of Soviet Socialist Republics The reason is that the field for the most part had not been expecting what happened in 1991 The USSR collapsed and went out of existence as a unified state system governing a sixth of the world's territory having allowed its East European empire to free itself from Soviet dominance somewhat earlier It might be said in defense of Sovietology that by the beginning of the 1980s it was understood that economic and political crises were brewing in the Soviet Union and its outer empire But the field as a whole failed to grasp the full depth of the systemic crisis in Soviet Russia and the destructive or self destructive potentialities inherent in it As the editors of this valuable volume write in the Introduction Sovietology was not prepared for perestroika and postcommunism The New Middle Class in China E. Tsang, 2014-05-29 Based on interviews with entrepreneurs

professionals and regional party cadres from a range of age groups this book argues that Western class categories do not directly apply to China and that the Chinese new middle class is distinguished more by socio cultural than by economic factors Modern Chinese Legal Reform Xiaobing Li, Qiang Fang, 2013-01-01 China's rapid socioeconomic transformation of the past twenty years has led to dramatic changes in its judicial system and legal practices As China becomes more powerful on the world stage the global community has dedicated more resources and attention to understanding the country's evolving democratization and policymakers have identified the development of civil liberties and long term legal reforms as crucial for the nation's acceptance as a global partner Modern Chinese Legal Reform is designed as a legal and political research tool to help English speaking scholars interpret the many recent changes to China's legal system Investigating subjects such as constitutional history the intersection of politics and law democratization civil legal practices and judicial mechanisms the essays in this volume situate current constitutional debates in the context of both the country's ideology and traditions and the wider global community Editors Xiaobing Li and Qiang Fang bring together scholars from multiple disciplines to provide a comprehensive and balanced look at a difficult subject Featuring newly available official sources and interviews with Chinese administrators judges law enforcement officers and legal experts this essential resource enables readers to view key events through the eyes of individuals who are intimately acquainted with the challenges and successes of the past twenty years

International Human Resource Management P. L. Rao, 2008 Managing people in a multinational context is the essence of international human resource management This requires a broader perspective of what operating internationally involves and a clear recognition of the range of issues pertaining to all categories of staff operating in different functional task and managerial capacities Books that are available on the subject are heavily loaded with cultural aspects rather than HRM processes From teaching experience it is noticed that students who are familiar with domestic HRM books find it difficult to comprehend the subject of international HRM Therefore the topics are arranged in the traditional HRM style with

international implications at each stage A separate chapter is allocated for Expatriation Repatriation Similarly Management of People in international context in sixteen countries is discussed in a separate chapter The text aims to cover in terms of industries to illustrate the activities and approaches of international organisations Also the coverage of different cultures is not intended to include all the different and diverse cultures of the world simply to enable sufficient understanding of the cultural contexts from which many of the approaches are derived and to provide background on the appropriateness of different aspects of managing people in international organisations A detailed treatment to empirical researches on cross cultural issues and cross cultural comparative management issues arising out of cross border mergers and acquisitions as well as human resource issues emerging out of global acquisitions of Arcelor and Corus by Indian companies and companies of Indian origin are also treated in the text
