Communities Of Practice Communities Of Practice:

Communities of Practice Within and Across Organizations Etienne Wenger-Trayner, Beverly Wenger-Trayner, Phil Reid, Claude Bruderlein, 2023-06 Communities of Practice in Health and Social Care Andrée le May, 2009-03-16

Communities of Practice in Health and Social Care highlights how communities of practice CoPs can make service development and quality improvement in health and social care easier to initiate and more sustainable. Using a series of case studies from the UK and Australia, the book demonstrates how the theory of CoPs is implemented in the delivery of health and social care and highlights the associated potential complexities, advantages and disadvantages. Communities of Practice in Health and Social Care equips practitioners, managers, educators and practice mentors with the knowledge and skills to facilitate the development and maintenance of Communities of Practice and highlights how the effects of Communities of Practice might be made explicit.

Communities of Practice Jason Hughes, Nick Jewson, Lorna Unwin, 2013-04-03

This benchmark text provides an accessible yet critical introduction to the theory and application of communities of practice and their use in a diverse range of managerial and professional contexts from education to human resource development. This book charts the development of the idea of communities of practice and explores the key relationship between learning and identity among newcomers and old timers, male and female workers, the low skilled and the high skilled professionals and managers, adults and adolescents. Drawing on international empirical studies and adopting a multi-disciplinary approach, this book is useful reading for all students, researchers, practitioners and policy makers with an interest in work, employment, labour markets, learning, training or education.

Cultivating Communities of Practice Etienne Wenger, Richard Arnold McDermott, William M Snyder, 2002

Today's marketplace is fueled by knowledge. Yet organizing systematically to leverage knowledge remains a challenge. Leading companies have discovered that technology is not enough and that cultivating communities of practice is the keystone of an effective knowledge strategy. Communities of practice come together around common interests and expertise, whether they consist of first line managers or customer service representatives, neurosurgeons or software programmers, city managers or home improvement amateurs. They create, share and apply knowledge within and across the boundaries of teams, business units and even entire companies, providing a concrete path toward creating a true knowledge organization. In *Cultivating Communities of Practice*, Etienne Wenger, Richard McDermott and William M Snyder argue that while communities form naturally, organizations need to become more proactive and systematic about developing and integrating them into their strategy. This book provides practical models and methods for stewarding these communities to reach their full potential without squelching the inner drive that makes them so valuable. Through in-depth cases from firms such as DaimlerChrysler, McKinsey Company, Shell and the World Bank, the authors demonstrate how communities of practice can be leveraged to drive overall company strategy, generate new business opportunities, tie personal development to corporate goals, transfer best practices and recruit and retain top talent. They

define the unique features of these communities and outline principles for nurturing their essential elements They provide guidelines to support communities of practice through their major stages of development address the potential downsides of communities and discuss the specific challenges of distributed communities And they show how to recognize the value created by communities of practice and how to build a corporate knowledge strategy around them Essential reading for any leader in today s knowledge economy this is the definitive guide to developing communities of practice for the benefit and long term success of organizations and the individuals who work in them Etienne Wenger is a renowned expert and consultant on knowledge management and communities of practice in San Juan California Richard McDermott is a leading expert of organization and community development in Boulder Colorado William M Snyder is a founding partner of Social Capital Group in Cambridge Massachusetts

Communities of Practice Jacque McDonald,Aileen Cater-Steel,2016-11-21 In this book about communities of practice in the international higher education sector the authors articulate the theoretical foundations of communities of practice CoPs research into their application in higher education leadership roles and how CoPs sustain and support professional learning Research demonstrates that communities of practice build professional and personal links both within and across faculty student services and administrative and support units This book describes how community of practice members may be physically co located and how social media can be used to connect members across geographically diverse locations It positions higher education communities of practice within the broader community of practice and social learning literature and articulates the importance of community of practice leadership roles and the growing focus on the use of social media for community of practice implementation The multiple perspectives provide higher education leaders academic and professional staff with the means to establish or reflect on existing CoPs by sharing insights and critical reflections on their implementation strategies practical guidelines and ideas on how community of practice s theoretical underpinnings can be tailored to the higher education context

Communities of Practice to Actively Manage Best Practices Stefano Borzillo,2007-11-18 Stefan Borzillo examines a large variety of CoPs by means of six success factors and identifies three basic types innovating strategic operational excellence and social and productive space CoPs He shows that innovating strategic CoPs are strongly sponsored by management that operational excellence CoPs are used to multiply technical and operational practices throughout an organization and that social and productive space CoPs owe their success to their members sense of security
