Basic Quantitative Research Methods for Urban Planners Reid Ewing,Keunhyun Park,2020-02-24 In most planning practice and research planners work with quantitative data By summarizing analyzing and presenting data planners create stories and narratives that explain various planning issues Particularly in the era of big data and data mining there is a stronger demand in planning practice and research to increase capacity for data driven storytelling Basic Quantitative Research Methods for Urban Planners provides readers with comprehensive knowledge and hands on techniques for a variety of quantitative research studies from descriptive statistics to commonly used inferential statistics It covers statistical

methods from chi square through logistic regression and also quasi experimental studies At the same time the book provides fundamental knowledge about research in general such as planning data sources and uses conceptual frameworks and technical writing The book presents relatively complex material in the simplest and clearest way possible and through the use of real world planning examples makes the theoretical and abstract content of each chapter as tangible as possible It will be invaluable to students and novice researchers from planning programs intermediate researchers who want to branch out methodologically practicing planners who need to conduct basic analyses with planning data and anyone who consumes the research of others and needs to judge its validity and reliability **Planning Support Methods** Richard E.

Klosterman,Kerry Brooks,Joshua Drucker,Edward Feser,Henry Renski,2018-06-25 Planning Support Methods offers the only practical guide to the key methods of urban and regional planning The authors apply and critically assess the most important methods for demographic and economic analysis and projection and land suitability analysis providing an essential resource for practicing planners and planning students alike For helpful tools from the author including Excel workbooks visit <https://planningsupport.org/tools> For resources including PowerPoint presentations and supplemental readings visit <https://planningsupport.org/resources> **Fundamentals of Plan Making** Edward J.
