An Introduction to Community Development Rhonda Phillips, Robert Pittman, 2014-11-26 Beginning with the foundations of community development An Introduction to Community Development offers a comprehensive and practical approach to planning for communities Road tested in the authors own teaching and through the training they provide for practicing planners it enables students to begin making connections between academic study and practical know how from both private and public sector contexts An Introduction to Community

Development shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes encouraging students to ask what is best practice when it comes to planning for communities and how do we accurately measure the results of planning practice. This newly revised and updated edition includes increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being, and public health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills-based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available.

ICT Pathways to Poverty Reduction Edith Ofwona Adera, T. M. Waema, Julian D. May, Ophelia Mascarenhas, Kathleen Diga, 2014. ICT Pathways to Poverty Reduction presents a conceptual framework to analyse how poverty dynamics change over time and to shed light on whether ICT access benefits the poor as well as the not so poor. Essential reading for policymakers, researchers, and academics in international development or ICT for development.

Community Quality-of-Life Indicators Frank Ridzi, Chantal Stevens, Lyle Wray, 2022-08-27. This volume continues the tradition now established since 2006 of compiling excellent research into the practice and application of community indicators in a single source volume. It focuses on the theme of the Community Indicators Consortium 2020 Summit as a significant venue for the advancement of the practice and theory of community indicators work. It covers the conference's theme of community resilience, which is the capacity of all of a community's elements to survive, adapt, and grow, no matter what kinds of chronic stresses and acute shocks they experience. In keeping with the practical best cases emphasis of this book series, the editors incorporate a case-based approach to chapters discussing how specific indicators, indices, or series of indicators can lead to better decisions and outcomes to help communities adapt and transform in the face of challenges, helping them prepare for both the expected and the unexpected to sustain and improve quality of life, including technology and open source approaches to data sharing and data focussed collaboration, evolving approaches that use shared indicators to improve overall community well-being and quality of life, research related to community indicators and policy application, research and/or practice and techniques, and approaches to measure resilience. This volume is of interest to social scientists, management professionals, social workers, and policy makers working on various aspects of community indicators of quality of life and well-being.
