

Course Introduction: Composition 1

It would be nice if we all saw our world the same way. Complex decisions about the economy, the environment, education, and even which restaurant to eat at tonight would be much simpler if we all agreed on everything as a matter of course. But even though these topics remain complex, and solutions for problems are hotly debated, disagreements aren't always final—people can sometimes be convinced to reconsider their points of view if your argument is persuasive. And fortunately the gift of persuasion can be learned.

Successful arguments provide relevant information but they should also click emotionally. The writer should build on what his or her audience already thinks while at the same time shaping those thoughts. Organization and wording should be chosen for maximum impact—each decision is made to emphasize an underlying goal. In short, arguments don't just assemble facts, they connect people.

So there's a science to argumentation. Even the most powerful emotional appeal can fall flat without rock-solid evidence and careful logic; gorgeous sentences die on the vine every day due to being hidden in the middle of a paragraph without a clear point; arguments without convincing evidence can make a smart idea seem ludicrous. In short, knowing how to apply the fundamental characteristics of good argumentative writing makes your ideas memorable.

This course is an introduction to the art and science of changing minds. By the end of the course, you'll have a stronger grasp of how to convince people into sharing your thoughts and ideas, and you'll be a little quicker to recognize and resist, or criticize—or just enjoy—when the same is being done to you.

A **narrative argument*** is a writing strategy that takes advantage of a form that readers are comfortable and familiar with: storytelling. Narrative arguments often use **first-person*** narration; the speaker is usually the writer of the piece.

What is a literacy narrative? It is a personal **story** about a significant experience that has to do with your literacy development. For the purpose of this essay, you should stick with a fairly narrow definition of literacy that focuses on your personal reading and/or writing experiences.
