Comparative Media Systems European And Global Perspectives:

Comparative Media Systems Boguslaw Dobek-Ostrowska, 2010 Introduced by Daniel C Hallin and Paolo Mancini the book takes stock of twenty years of exiting transformation of east European media systems after the collapse of communism in 1989 an explicit comparative academic discussion of media politics Leading researchers from different regions of Europe and the United States address five major interrelated themes 1 how ideological and normative constructs gave way to empirical systematic comparative work in media research 2 the role of foreign media groups in post communist regions and the effects of ownership in terms of impacts on media freedom 3 the various dimensions of the relationship between mass media and political systems in a comparative perspective 4 professionalization of journalism in different political cultures autonomy of journalists professional norms and practices political instrumentalization and the commercialization of the media 5 the role of state intervention in media systems

Comparative Media Systems Boguslaw Dobek-Ostrowska, Michał Głowacki, Karol Jakubowicz, Miklós Sükösd, 2010-01-10 Leading researchers from different regions of Europe and the United States address five major interrelated themes 1 how ideological and normative constructs gave way to empirical systematic comparative work in media research 2 the role of foreign media groups in post communist regions and the effects of ownership in terms of impacts on media freedom 3 the various dimensions of the relationship between mass media and political systems in a comparative perspective 4 professionalization of journalism in different political cultures autonomy of journalists professional norms and practices political instrumentalization and the commercialization of the media 5 the role of state intervention in media systems

Advancing Comparative Media and Communication Research Joseph M. Chan, Francis L. F. Lee, 2017-06-26 A comparative approach to media and communication research plays an important if not indispensable role in achieving a core mission of researchers to delimit the generality and specificity of media and communication theories enabling researchers to more readily identify the influence of social political and cultural contexts in shaping media and communication phenomena To de Westernize and internationalize media and communication studies has thus become the way forward for overcoming the parochialism of mainstream media and communication studies This volume reflects on what comparative media and communication research has achieved or failed to achieve the epistemological and theoretical challenges it is facing and the new directions in which it should be heading

The Media Systems in Europe Stylianos Papathanassopoulos, Andrea Miconi, 2023-08-17 This open access book traces the evolution of the European media landscape in the last 30 years from 1990 to 2020 It is based on the theoretical classical hypotheses of regional media systems provided by Hallin and Mancini and at the same time puts them to test The book further defines the proportions between geocultural patterns national regional European and global to outline evolutionary trends in media landscapes It analyzes to which degree European media have become more European in the historical course of administrative unification and breaks the results down into concrete indexes and indicators The book discusses the media

systems of the member states of the European Union through a regional perspective identifying similarities differences as well as their convergence in the digital age It sheds light on the evolution of media systems in Europe introduces existing relevant theoretical perspectives and offers an overview of the new developments in European media The book will appeal to students researchers and scholars of political science communication media cultural and policy studies as well as practitioners and professionals interested in a better understanding of the European media landscape s evolution

Central and Eastern European Media in Comparative Perspective John Downey, Sabina Mihelj, 2016-04-15 Appearing more than twenty years after the revolutions in Central and Eastern Europe this book could not have come at a more appropriate time a time to take stock not only of the changes but also the continuities in media systems of the region since 1989 To what extent are media institutions still controlled by political forces To what extent are media markets operating in Central and Eastern Europe Do media systems in Central and Eastern Europe resemble media systems in other parts of Europe The answers to these questions are not the same for each country in the region Their experience is not homogeneous An international line up of distinguished experts and emerging scholars methodically examine the different economic political cultural and transnational factors affecting developments in media systems across Central and Eastern Europe Whereas earlier works in the media system tradition have in the main adopted the political framework of comparative politics the authors argue that media systems are also cultural and economic institutions and there are other critical variables that might explain certain outcomes better Topics discussed range from political economy to gender inequality to the study of ethno cultural diversity This unmatched volume gives you the unique opportunity to study the growing field of comparative media analysis across Eastern and Western Europe A valuable resource that goes beyond the field of media and cultural analysis which media scholars as well as to area specialists should not go without

The Handbook of Comparative Communication Research

Frank Esser, Thomas Hanitzsch, 2013-06-19 The Handbook of Comparative Communication Research aims to provide a comprehensive understanding of comparative communication research It fills an obvious gap in the literature and offers an extensive and interdisciplinary discussion of the general approach of comparative research its prospect and problems as well as its applications in crucial sub fields of communications The first part of the volume charts the state of the art in the field the second section introduces relevant areas of communication studies where the comparative approach has been successfully applied in recent years the third part offers an analytical review of conceptual and methodological issues and the last section proposes a roadmap for future research

The Haitian Media System and its Main Characteristics: A Model of the Precarious System of Democratic Transition

Wisniqu Panier, 2023-06-26 This book presents a new theoretical model of a media system called the model of the precarious system of democratic transition The latter is based on fifteen parameters that characterize the Haitian media system and the environment in which it evolves This is a significant contribution to advancing knowledge in media studies and public communication in general After carefully

analyzing different models of media systems existing in the scientific literature including the three models proposed by Halin and Mancini 2004 the author concludes that none of them applies to the typical Haitian case His study confirms the limitations of media system models resulting from Halin and Mancini s comparative studies in the context of Western countries It is a real reference document that gives an unprecedented reading grid to analyze the media systems of non Western countries particularly African or Latin American countries which have characteristics similar to that of Haiti Indeed in his doctoral thesis the author concluded that the Haitian media system has transformed over the past 60 years under the influence of three sets of factors linguistics democratic and technological Nevertheless he comes to the conclusion that the changes observed are only in the relations between the actors of the system without leading to a reconfiguration of the system The main characteristics of the Haitian media system and its environment remained unchanged from 1957 to 2022 So there is an inertia that keeps the system in an initial state

Communication Theory and Application in Post-Socialist Contexts Michael R. Finch, Marta N. Lukacovic, Maureen C. Minielli, Sergei A. Samoilenko, 2022-03-14 While the broader field of communication studies is gaining more global prominence this is an era when the underrepresented voices are fortunately becoming more recognized Communication Theory and Application in Post Socialist Contexts illustrates how Eurasia and Central and Eastern Europe the post socialist region represents a population of more than 400 million who embody a wide array of communication experiences This book aims to capture significant communication tendencies in several post socialist countries and situate these tendencies within communication theory and application It contains the examples of theory building and adaptation as well as applied projects implemented in national and local contexts Only by inclusive incorporation of the underrepresented experiences in the field s discussions can the communication discipline continue to assert its relevance in and for the global community This book serves as a resource for anyone on the quest of diversifying and globalizing communication studies

Management and Economics of Communication M. Bjørn Rimscha, 2020-06-08 This handbook combines the perspectives of communication studies economics and management and psychology in order to provide a comprehensive economic view on personal and mass communication It is divided into six parts that comprise 1 an overarching introduction that defines the field and provides a brief overview of its history 1 chapter 2 the most commonly used theoretic frameworks for the analysis of communication economics and management 4 chapters 3 the peculiarities of the quantitative and qualitative methods and data used in the field 3 chapters 4 key issues of the field such as the economics of language labor in creative industries media concentration branding etc 10 chapters 5 descriptions of the development trends and peculiarities of the field in different parts of the world written by scholars from the respective region 10 chapters 6 reflections on future directions for the field both from a managerial and from an economics perspective 1 chapter The authors of the individual chapters represent different academic disciplines research traditions and geographic backgrounds The reader will thus gain multifaceted insights into the management and economics of communication

The International

History of Communication Study Peter Simonson, David W. Park, 2015-10-14 The International History of Communication Study maps the growth of media and communication studies around the world Drawing out transnational flows of ideas institutions publications and people it offers the most comprehensive picture to date of the global history of communication research and education This volume reaches into national and regional areas that have not received much attention in the scholarship until now including Asia Latin America Africa and the Middle East alongside Europe and North America It also covers communication study outside of academic settings in international organizations like UNESCO and among commercial and civic groups It moves beyond the traditional canon to cover work by forgotten figures including women scholars in the field and those outside of the United States and Europe and it situates them all within the broader geopolitical institutional and intellectual landscapes that have shaped communication study globally Intended for scholars and graduate students in communication media studies and journalism this volume pushes the history of communication study in new directions by taking an aggressively international and comparative perspective on the historiography of the field Methodologically and conceptually the volume breaks new ground in bringing comparative transnational and global frames to bear and puts under the spotlight what has heretofore only lingered in the penumbra of the history of communication study
