Comparing Environmental Policies In 16 Countries:

Comparing Environmental Policies in 16 Countries David Howard Davis, 2013-12-13 Based on the author's 39 years of teaching environmental policy working in Washington and traveling Comparing Environmental Policies in 16 Countries offers a complete primer in environmental dilemmas and policies from a comparative perspective The book covers 16 countries according to five themes participation interest groups political parties

Environmental Policy in North America Robert G. Healy, Debora VanNijnatten, Marcela López-Vallejo, 2014-01-01 This comprehensive analysis of key issues in North American environmental policy provides an overview of how the US Mexico and Canada differ in their environmental management approaches and capacity levels and how these differences play into cross border cooperation on environmental problems The book offers insights into transboundary cooperation both before and after NAFTA and presents a framework for making environmental interaction more effective in the future The book is organized into two parts The first more general section compares the national contexts for environmental management in each country including economic conditions sociocultural dynamics and political decision making frameworks and shows how these have led to variations in policy approaches and levels of capacity The authors argue that effective environmental governance in North America depends on the ability of transboundary institutions to address and mediate these differences The book's second section illustrates this argument using four case studies of environmental management in North America biodiversity and protected areas air pollution smog greenhouse gas reduction and genetically modified crops

Historical Dictionary of Environmentalism Peter Dauvergne, 2024-02-26 Historical Dictionary and Environmentalism Third Edition provides a balanced and wide ranging overview of the most important events issues organizations ideas and people shaping the direction of environmentalism worldwide This book is global in scope covering a large range of perspectives and countries with a focus on the period since 1960 This book contains a chronology an introduction and an extensive bibliography The dictionary section has more than 400 cross referenced entries on organizations people issues events and countries shaping environmentalism This book is an excellent resource for students researchers and anyone wanting to know more about environmentalism

Comparative Environmental Politics Jerry McBeath, Jonathan Rosenberg, 2006-07-10 While we cannot hope to provide definitive answers to these questions as political scientists we proceed from the assumption that much can be learned through the application of the existing tools of comparative political analysis Two of the incidents occurred in developing countries one a parliamentary democracy the other a democratizing presidential system and one occurred in a highly developed presidential democracy All three countries are federal systems with multiple layers of environmental regulation although sub national government seems to be better institutionalized and more effective in the United States Only one of the incidents occurred within the sovereign territory of a country with an effective federal environmental protection agency and highly transparent policy and judicial processes None of the three nation states involved has a strong green political party And the affected communities in

all three cases remain dissatisfied with the outcomes to varying degrees What can we make of these observations Is there a systematic relationship between them or any other political social cultural or economic factors and the responses to environmental crises by nation states To answer these questions a more systematic analysis of the attendant political processes is needed Only then can we suggest whether hope or despair is a more appropriate reaction 1 2 Global Environmental Issues Since the 1960s environmental issues have entered the agendas of most nation states Pollution of land air and water have endangered ecosystems and public health and called for a governmental response

Comparative Environmental Regulation in the United States and Russia Lada V. Kochtcheeva, 2008-12-18 As environmental problems continue to pose a threat to the well being of people all over the world achieving pollution control through innovative methods and at a lower cost becomes very attractive However cost effectiveness and technical rationality are often at odds with political goals and policy traditions Lada V Kochtcheeva analyzes the introduction of flexible laws and regulations in both air and water quality policies in the United States and the Russian Federation from the 1960s to the present and highlights the replacement of command and control systems with flexible instruments such as incentive programs tradable permits and pollution charges With its rich comparative institutional analysis the book contributes to the debate on institutional dynamism policy innovation and new modes of regulation while simultaneously addressing the processes and attributes of good governance

Environmental Regulation Through Financial Organisations: Comparative Perspectives on the Industrialised Nations Benjamin Richardson, 2002-02-13 This book takes a comparative perspective of practice in the European Union North America Japan and Australasia arguing that existing legal reforms to promote sustainable development are unlikely to be successful unless environmental policy can be diffused and embedded in the financial services sector This sector plays a crucial role in creating the financial conditions that allow much economic development to proceed Financial markets are already highly regulated in pursuance of various public policy objectives and there is scope to adapt existing regulation to incorporate environmental aspects into the financial services sector In terms of specific reforms the book focuses on the role of corporate environmental reporting economic instruments and liability rules to provide a proper context for engaging financial organisations with the environment as well as reforms to the system of prudential regulation that currently governs this sector Beyond the focus on the financial services sector the book raises complex questions regarding the relationship between the state and market institutions in environmental policy and will appeal to scholars from a wide range of disciplines interested in problems of environmental governance

Comparative Perspectives on Environmental Policies and Issues Robert A. Dibley, 2014-01-10 Comparative Perspectives on Environmental Policies and Issues presents tools and concepts about environmental policies in several developed and developing countries It explores a broad survey of ecological modernization theory ecological feminism theory environmental justice theory the concept of sustainability and research on environmental policies Data were collected

through surveys interviews and focus groups and are used to analyze social economic and environmental impact on people The book specifically discusses how the earth s basic life supporting capital soils forests species fresh water and oceans is degraded or depleted to provide for human needs and how air pollution and acid precipitation are causing widespread injury to humans forests and crops Realistically over taxing of natural resources and ecological systems throughout the world has promoted economic growth and created increasing opportunities for people while also advancing social injustice The use of the environment to accomplish social and economic transformation raises fundamental issues for the study of environmental policy and the natural ecological system As human beings exploit the natural environment to meet present needs they often will destroy resources needed for the future generations Thus environmental policies are enacted to ensure that social and economic impacts of the environment are compatible with the limits of natural systems Offering an intuitive and crystal clear explanation of the key concepts and principles of environmental policies and sustainable development this volume is suitable not only for environmental science students but also for instructors practitioners researchers and academics

The Small-Scale Fisheries Guidelines Svein Jentoft,Ratana Chuenpagdee,María José Barragán-Paladines,Nicole Franz,2017-06-10 In June 2014 FAO member states endorsed the Voluntary Guidelines for Securing Sustainable Small Scale Fisheries SSF Guidelines These Guidelines are one of the most significant landmarks for small scale fisheries around the world They are comprehensive in terms of topics covered and progressive with their foundations based on human rights and other key principles It can be anticipated that implementing the SSF Guidelines whether at local national or regional levels will be challenging This book contains in depth case studies where authors discuss the extent to which the Guidelines can help improve the realities of small scale fishing men and women globally and make their livelihoods and communities more secure This will require policy intervention and innovation along with contributions of civil society organizations and academia However most of all it will necessitate the empowerment of fishing people so that they can become active participants in decision making on matters where their well being and human rights are at stake By endorsing the SSF Guidelines states have committed themselves to support and facilitate this development This book asks whether states can successfully walk the talk and provides advice as to how they can do so The collection of case studies sets the platform for an interactive dialogue space for researchers policy makers civil society and small scale fishing communities to start the conversation about the monitoring and evaluation of the implementation of the SSF Guidelines at local national regional and global levels An added value is that it helps add focus to our work as civil society activists involved in ensuring the application of the SSF Guidelines Naseegh Jaffer General Secretary World Forum of Fisher People WFFP This collection offers many ways in which institutions enabling small scale fisheries can protect and promote sustainability food security customary tenure self management and market access while fostering such benefits as ecosystem based management protected areas incorporation of local knowledge and poverty alleviation You will want to put this book in the hands of policy

makers and practitioners immediately and for years to come Evelyn Pinkerton Professor Simon Fraser University Canada

Comparative Public Policy Anneliese Dodds, 2018-03-29 The second edition of this popular textbook combines coverage of public policies in different countries with the conceptual and methodological frameworks for analysing them This new edition pays particular attention to the international contexts of ideas interests and institutions in which decision makers operate In addition it considers the bilateral multilateral and transnational aspects of policy making in today's interconnected world This is a core text for introductory modules on undergraduate and postgraduate public policy public management and public administration programmes In addition it will be useful for those courses that take a comparative approach to specific policy areas such as welfare health and education With a focus on enabling students to draw their own comparisons it is the ideal choice for lecturers across the world New to this Edition New and improved chapter structure places conceptual discussion before the empirical analysis leading to a stronger emphasis on big picture questions throughout Increased attention to contemporary relevant policy issues such as migration climate change and security Quantitative and descriptive data has been systematically updated

Digital Connectivity in sub-Saharan Africa: A Comparative Perspective Mr. Emre Alper, Michal Miktus, 2019-09-27 Higher digital connectivity is expected to bring opportunities to leapfrog development in sub-Saharan Africa SSA Experience within the region demonstrates that if there is an adequate digital infrastructure and a supportive business environment new forms of business spring up and create jobs for the educated as well as the less educated The paper first confirms the global digital divide through the unsupervised machine learning clustering K means algorithm Next it derives a composite digital connectivity index in the spirit of De Muro Mazziotta Pareto for about 190 economies Descriptive analysis shows that majority of SSA countries lag in digital connectivity specifically in infrastructure internet usage and knowledge Finally using fractional logit regressions we document that better business enabling and regulatory environment financial access and urbanization are associated with higher digital connectivity
