Criminal Justice At The Crossroads Transforming Crime And Punishment:

Criminal Justice at the Crossroads William R. Kelly, 2015-05-05 Over the past forty years the criminal justice system in the United States has engaged in a very expensive policy failure attempting to punish its way to public safety with dismal results So called tough on crime policies have not only failed to effectively reduce crime recidivism and victimization but also created an incredibly inefficient system that routinely fails the public taxpayers crime victims criminal offenders their families and their communities Strategies that focus on behavior change are much more productive and cost effective for reducing crime than punishment and in this book William R Kelly discusses the policy process and funding innovations and priorities that the United States needs to effectively reduce crime recidivism victimization and cost He recommends proactive evidence based interventions to address criminogenic behavior collaborative decision making from a variety of professions and disciplines and a focus on innovative alternatives to incarceration such as problem solving courts and probation Students professionals and policy makers alike will find in this comprehensive text a bracing discussion of how our criminal justice system became broken and the best strategies by which to fix it **From Retribution to Public Safety**

William R. Kelly, 2017-05-25 Over the past fifty years American criminal justice policy has had a nearly singular focus the relentless pursuit of punishment Punishment is intuitive proactive logical and simple But the problem is that despite all of the appeal logic and common sense punishment doesn't work The majority of crimes committed in the United States are by people who have been through the criminal justice system before many on multiple occasions There are two issues that are the primary focus of this book The first is developing a better approach than simple punishment to actually address crime related circumstances deficits and disorders in order to change offender behavior reduce recidivism victimization and cost And the second issue is how do we do a better job of determining who should be diverted and who should be criminally prosecuted From Retribution to Public Safety develops a strategy for informed decision making regarding criminal prosecution and diversion The authors develop procedures for panels of clinical experts to provide prosecutors with recommendations about diversion and intervention This requires a substantial shift in criminal procedure as well as major reform to the public health system both of which are discussed in detail Rather than ask how much punishment is necessary the authors look at how we can best reduce recidivism In doing so they develop a roadmap to fix a fundamentally flawed system that is wasting massive amounts of public resources to not reducing crime or recidivism **Confronting**

Underground Justice William R. Kelly, 2018-10-29 Plea negotiation is rife with due process concerns including a heightened risk of coerced pleas ignoring mens rea serious questions about assistance of counsel limited discovery and little litigation of the evidence the conviction of innocent defendants and significant questions about fairness and equity Plea negotiation is also the fast track to criminal conviction tough punishment and mass incarceration From the perspective of public policy plea negotiation perpetuates a harm based retribution focused system of crime and punishment Because of the failures of public

health the justice system has become a dumping ground for hundreds of thousands of mentally ill substance addicted and abusing and neurocognitively impaired offenders And because of a tough on crime mentality and lack of information and options the justice system routinely prosecutes and punishes these offenders The evidence is quite clear that punishment does nothing to improve these circumstances and often exacerbates them The result as one would predict is extraordinarily high rates of reoffending propelling the revolving door of the justice system Confronting Underground Justice takes a close look at plea negotiation criminal prosecution public defense and pretrial justice systems and identifies a wide variety of problems and concerns with each William R Kelly and Robert Pitman provide key decision makers with the tools to make better more informed decisions regarding pre trial detention prosecution and plea deals criminal defense and diversion to treatment Critical to this effort is redefining roles responsibilities and the culture of criminal justice by prosecutors judges and defense counsel accepting responsibility for reducing recidivism and embracing problem solving as a primary decision making strategy Kelly and Pitman combine decades of academic research and policy expertise with real world experience in the court system as a judge and prosecutor to develop innovative and comprehensive reform Confronting Underground Justice provides a prescriptive roadmap for how to fundamentally reinvent plea negotiation pre trial decision making criminal prosecution and public defense to effectively reduce recidivism and save money

The Future of Crime and Punishment

William R. Kelly, 2016-07-14 Today we know that crime is often not just a matter of making bad decisions Rather there are a variety of factors that are implicated in much criminal offending some fairly obvious like poverty mental illness and drug abuse and others less so such as neurocognitive problems Today we have the tools for effective criminal behavioral change but this cannot be an excuse for criminal offending In The Future of Crime and Punishment William R Kelly identifies the need to educate the public on how these tools can be used to most effectively and cost efficiently reduce crime recidivism victimization and cost The justice system of the future needs to be much more collaborative utilizing the expertise of a variety of disciplines such as psychology psychiatry addiction and neuroscience Judges and prosecutors are lawyers not clinicians and as we transition the justice system to a focus on behavioral change the decision making will need to reflect the input of clinical experts The path forward is one characterized largely by change from traditional criminal prosecution and punishment to venues that balance accountability compliance and risk management with behavioral change interventions that address the primary underlying causes for recidivism There are many moving parts to this effort and it is a complex proposition It requires substantial changes to law procedure decision making roles and responsibilities expertise and funding Moreover it requires a radical shift in how we think about crime and punishment Our thinking needs to reflect a perspective that crime is harmful but that much criminal behavior is changeable

The Crisis in America's Criminal Courts William R. Kelly, 2021-08-15 *The Crisis in America's Criminal Courts* highlights a variety of problems that judges prosecutors and public defenders face within a criminal justice system that is ineffective unfair and extraordinarily expensive While many argue and author William R Kelly agrees that crushing caseloads and court dockets certainly qualify as a crisis Kelly suggests there is a much greater crisis in the courts that results in profound downstream effects on criminal justice performance and outcomes It sounds simple but the greatest risk faced by the justice system is the lack of time expertise and resources for effective decision making In this book Kelly proposes a variety of evidence based reforms that as a start provide the key decision makers with professional clinical experts to accurately assess and advice regarding mitigating the circumstances that bring individuals into the courts We must rebalance We need incarceration for those who are too dangerous or violent or who are habitual offenders For most of the rest we need to manage risk but very importantly it is time to get serious about behavioral change We need to change the culture of the courthouse and reorient how we think about crime and punishment
