Crisis Migration Perspectives Anna Lindley:

Crisis and Migration Anna Lindley, 2014-07-11 Crisis and migration have a long association in popular and policy discourse as well as in social scientific analysis. Despite the emergence of more nuanced and even celebratory accounts of mobility in recent years, there remains a persistent emphasis on migration being either a symptom or a cause of crisis. Moreover, in the context of a recent series of headline hitting and politically controversial situations, terms like migration crisis and crisis migration are acquiring increasing currency among policy makers and academics. *Crisis and Migration* provides fresh perspectives on this routine association, critically examining a series of politically controversial situations around the world. Drawing on first hand research into the Arab uprisings, conflict and famine in the Horn of Africa, cartel violence in Latin America, the global economic crisis and immigration crises from East Asia to Southern Africa to Europe, the book's contributors situate a set of contemporary crises within longer histories of social change and human mobility, showing the importance of treating crisis and migration as contextualised processes rather than isolated events. By exploring how migration and crisis articulate as lived experiences and political constructs, the book brings migration from the margins to the centre of discussions of social transformation and crisis, illuminates the acute politicisation and diverse spatialisations of crisis migration relationships, and urges a nuanced, cautious and critical approach to associations of crisis and migration.

The Oxford Handbook of Migration Crises Dr. Cecilia Menjívar, Dr. Marie Ruiz, Dr. Immanuel Ness, 2019-01-16 The objective of *The Oxford Handbook of Migration Crises* is to deconstruct, question and redefine through a critical lens what is commonly understood as migration crises. The volume covers a wide range of historical, economic, social, political and environmental conditions that generate migration crises around the globe. At the same time, it illuminates how the media and public officials play a major role in framing migratory flows as crises. The volume brings together an exceptional group of scholars from around the world to critically examine migration crises and to revisit the notion of crisis through the context in which permanent and non permanent migration flows occur. *The Oxford Handbook of Migration Crises* offers an understanding of individuals in societies, socio economic structures and group processes. Focusing on migrants, departures and arrivals in all continents, this comprehensive handbook explores the social dynamics of migration crises with an emphasis on factors that propel these flows as well as the actors that play a role in classifying them and in addressing them. The volume is organized into nine sections. The first section provides a historical overview of the link between migration and crises. The second looks at how migration crises are constructed, while the third section contextualizes the causes and effects of protracted conflicts in producing crises. The fourth focuses on the role of climate and the environment in generating migration crises, while the fifth section examines these migratory flows in migration corridors and transit countries. The sixth section looks at policy responses to migratory flows. The last three sections look at the role media and visual culture, gender and immigrant incorporation play in migration crises. Haunting Futures Marek Pawlak, 2024-12-01 The 2008 economic

collapse in Iceland sent its residents into a destabilising crisis with far reaching temporal and affective consequences. *Haunting Futures* explores how the complex relationships of this unstable past and the anticipatory modes of the ongoing present keep Icelanders and the Polish migrant community in their midst alert to looming futures in crisis. It offers insights into timely crisis ridden impacts and imaginings migration processes and social understandings and practices. Through its attention to how people engage with crisis temporally and affectively the book presents the crisis not simply as an isolated and distressing event but as a spectre embodied in time through ongoing anticipation.

Organizational Perspectives on Environmental Migration Kerstin Rosenow-Williams, François Gemenne, 2015-10-16 Over the past decade international organizations IOs and non governmental organizations NGOs have increasingly focused their efforts on the plight of environmental migrants in both industrialized and developing countries. However to date very few studies have analysed the influence and rhetoric of advocacy groups in the debates on environmental migration. *Organizational Perspectives on Environmental Migration* fills this lacuna by drawing together and examining the related themes of climate change and environmental degradation migration and organizational studies to provide a fresh perspective on their increasing relevance. In order to assess the role of IOs and NGOs in the environmental migration discourse and to understand their interaction and their ways of addressing the topic the book contains a wide range of contributions covering the perspectives of organizational sociologists political scientists anthropologists geographers lawyers and practitioners. The chapters are organized thematically around the perspectives of key actors in the area of environmental migration including IOs courts and advocacy groups. The geographically diverse and interdisciplinary range of contributions makes this volume an essential foundational text for organizational responses to environmental migration. This volume will be of great interest to students and scholars of migration studies international relations organizational sociology refugee law and policy and development studies.

The Elgar Companion to Migration and the Sustainable Development Goals Nicola Piper, Kavita Datta, 2024-04-12 This dynamic Companion explores the connections and disconnections between migration and sustainable development as articulated by the UN's Agenda 2030 and Sustainable Development Goals SDGs. Providing a critical appraisal of Agenda 2030 it examines the extent to which the SDGs encompass migration and migrant related experiences within the context of the pledge to leave no one behind.

Informal Governance and Crisis Joseph P. Helou, Abel Polese, 2025-09-22 This book examines the impact of crises on people's lives by walking readers through several case studies from Mali Niger Kyrgyzstan Brazil Lebanon Libya and several escape routes and entry points such as the Canary Islands into the European Union. It conceptualizes crises as events that disrupt political social and economic orders thus breeding ad hoc people led solutions. These informal people led coping strategies re define existing social systems challenge political orders and transcend the pre existing economic conventions. The book shows how an increase in the volume and scope of informal practices in addition to the repetition of these practices over time culminate in the rise of new modes of governance. It

reveals that these new governance dynamics can supplant the state defy state rules and or complement state capacities The analyses and reflections in this book provide policy makers with valuable insights to deal with governance in post crises situations while recognizing the role of informality in this process This book is intended for students researchers and scholars of migration studies political science and international relations It also offers valuable perspectives for policymakers and practitioners working in the fields of governance crisis management and social development The chapters in this book were originally published as a special issue of Third World Quarterly

Negotiations of Migration

Annimari Juvonen, Verena Lindemann Lino, 2021-08-23 At a time when migration is mostly discussed in terms of conflict and crisis it is decidedly important to acknowledge the discursive traditions narrative patterns and conceptual categories that continue to inform how migration is represented analyzed and theorized in contemporary Europe This volume focuses on the potential of artistic and critical practices to challenge hegemonic framings of migration and embrace the ambivalence inherent in migration as a conflictual often violent yet also liberating uprooting By placing special emphasis on peripheral perspectives and subject positions the volume provides new insights into topics such as belonging and exclusion the migrant crisis and memory By bringing into dialogue creative practices and academic discourses it explores how new modes of seeing and theorizing may emerge through experiences and representations of migration Situated within the field of literary and cultural studies it complements historical and social analyses in the emerging interdisciplinary field of migration studies

Why Human

Rights Still Matter in Contemporary Global Affairs Mahmood Monshipouri, 2020-04-29 This book elucidates why human rights still matter in contemporary global affairs and what can lead to better protection of international human rights in a post liberal order It blends theoretical empirical and normative perspectives while providing much needed analysis in light of the perils of populism authoritarianism and toxic nationalism as well as highlighting the hopes with which people around the world view human rights in the new millennium Systematically combining theoretical perspectives from across the disciplines with numerous case studies it demonstrates not only the complexities of the domestic conditions involved but also the ways in which human dignity can be preserved and promoted during periods of rapid change and uncertainty Finally the book addresses the question of how to protect human rights in such a world in which the active promotion of democratic values and enforcement of human rights may not be necessarily aligned with evolving economic and geopolitical interests of many great and diverse powers on the global scene As such it is a timely intervention for human rights as a concept as it has been attacked and eroded by the instability in our world today This book will be of key interest to scholars and students of human rights in politics law philosophy sociology and history and to humanitarian bodies practitioners and policy makers
