## **Byzantium Faith And Power 1261 1557:**

**Byzantium** Metropolitan Museum of Art (New York, N.Y.),2004 The fall of the Byzantine capital of Constantinople to the Latin West in 1204 during the Fourth Crusade abruptly interrupted nearly nine hundred years of artistic and cultural traditions In 1261 however the Byzantine general Michael VIII Palaiologos triumphantly re entered Constantinople and reclaimed the seat of the empire initiating a resurgence of art and culture that would continue for nearly three hundred years not only in the waning empire itself but also among rival Eastern Christian nations eager to assume its legacy Byzantium Faith and Power 1261 1557 and the groundbreaking exhibition that it accompanies explores the artistic and cultural flowering of the last centuries of the Empire of the Romans and its enduring heritage Conceived as the third of a trio of exhibitions dedicated to a fuller understanding of the art of the Byzantine Empire whose influence spanned more than a millennium Byzantium Faith and Power 1261 1557 follows the 1997 landmark presentation of The Glory of Byzantium which focused on the art and culture of the Middle Byzantine era the Second Golden Age of the Byzantine Empire 843 1261 In the late 1970s The Age of Spirituality explored the early centuries of Byzantium s history The present concluding segment explores the exceptional artistic accomplishments of an era too often considered in terms of political decline Magnificent works from splendid frescoes textiles gilded metalwork and mosaics to elaborately decorated manuscripts and liturgical objects testify to the artistic and intellectual vigor of the Late and Post Byzantine era In addition forty magnificent icons from the Holy Monastery of Saint Catherine Sinai Egypt join others from leading international institutions in a splendid gathering of these powerful religious images While the political strength of the empire weakened the creativity and learning of Byzantium spread farther than ever before The exceptional works of secular and religious art produced by Late Byzantine artists were emulated and transformed by other Eastern Christian centers of power among them Russia Serbia Bulgaria and Cilician Armenia The Islamic world adapted motifs drawn from Byzantium s imperial past as Christian minorities in the Muslim East continued Byzantine customs From Italy to the Lowlands Byzantium s artistic and intellectual practices deeply influenced the development of the Renaissance while in turn Byzantium s own traditions reflected the empire s connections with the Latin West Fine examples of these interrelationships are illustrated by important panel paintings ceramics and illuminated manuscripts among other objects In 1557 the Empire of the Romans as its citizens knew it which had fallen to the Ottoman Turks in 1453 was renamed Byzantium by the German scholar Hieronymus Wolf The cultural and historical interaction and mutual influence of these major cultures the Latin West and the Christian and Islamic East during this fascinating period are investigated in this publication by a renowned group of international scholars in seventeen major essays and catalogue discussions of more than 350 exhibited objects **Byzantium, Faith, and Power (1261-1557)** Metropolitan Museum of Art (New York, N.Y.),2006 This volume publishes twelve papers that were delivered at an academic symposium held at The Metropolitan Museum of Art New York on April 16 18 2004 in conjunction with the exhibition

**Byzantine Orthodoxies** Andrew Louth, Augustine Casiday, 2006 The Byzantine Empire the Christianized Roman Empire very soon defined itself in terms of correct theological belief orthodoxy The terms of this belief were hammered out for the most part by bishops but doctrinal decisions were made in councils called by the Emperors many of whom involved themselves directly in the definition of orthodoxy Iconoclasm was an example of such imperial involvement as was the final overthrow of iconoclasm That controversy ensured that questions of Christian art were also seen by Byzantines as implicated in the question of orthodoxy The papers gathered in this volume derive from those presented at the 36th Spring Symposium of Byzantine Studies Durham March 2002 They discuss how orthodoxy was defined and the different interests that it represented how orthodoxy was expressed in art and the music of the liturgy and how orthodoxy helped shape the Byzantine Empire's sense of its own identity an identity defined against the other Jews heretics and especially from the turn of the first millennium the Latin West These considerations raise wider questions about the way in which societies and groups use world views and issues of belief     Byzantium: Faith and Power 1261-1557, 200?     **Byzantine Art and Diplomacy in an Age of Decline** Cecily J. Hilsdale, 2014-02-20 The Late Byzantine period 1261-1453 is marked by a paradoxical discrepancy between economic weakness and cultural strength The apparent enigma can be resolved by recognizing that later Byzantine diplomatic strategies despite or because of diminishing political advantage relied on an increasingly desirable cultural and artistic heritage This book reassesses the role of the visual arts in this era by examining the imperial image and the gift as reconceived in the final two centuries of the Byzantine Empire In particular it traces a series of luxury objects created specifically for diplomatic exchange with such courts as Genoa Paris and Moscow alongside key examples of imperial imagery and ritual By questioning how political decline refigured the visual culture of empire Cecily J Hilsdale offers a more nuanced and dynamic account of medieval cultural exchange that considers the temporal dimensions of power and the changing fates of empires
