Library,1960 **Gardeners' Chronicle and Agricultural Gazette** ,1862 *The Knossos Labyrinth* Rodney

Castleden,2012-10-12 Knossos like the Acropolis or Stonehenge is a symbol for an entire culture The Knossos Labyrinth was first built in the reign of a Middle Kingdom Egyptian pharaoh and was from the start the focus of a glittering and exotic culture Homer left elusive clues about the Knossian court and when the lost site of Knossos gradually re emerged from obscurity in the nineteenth century the first excavators Minos Kalokairinos Heinrich Schliemann and Arthur Evans were predisposed to see the site through the eyes of the classical authors Rodney Castleden argues that this line of thought was a false trail and gives an alternative insight into the labyrinth which is every bit as exciting as the traditional explanations and one which he believes is much closer to the truth Rejecting Evans view of Knossos as a bronze age royal palace Castleden puts forward alternative interpretations that the building was a necropolis or a temple and argues that the temple interpretation is the most satisfactory in the light of modern archaeological knowledge about Minoan Crete **Eastern**

book on medieval military history The awarding committee commented that the book has an enormous range and yet is exceptionally scholarly with a fine grasp of detail Its title points to a general history of eastern Europe but it is dominated by military episodes which make it of the highest value to anybody writing about war and warmaking in this very neglected area of Europe See inside the book [Library Catalog](#) Metropolitan Museum of Art (New York, N.Y.).
