Church Comes Home The Building Community And Mission Through Home Churches:

The Church Comes Home Robert Banks, Julia Banks, 1998 In our modern dislocated society many are searching for a church experience that offers true Christian sharing nurturing and discipleship in addition to teaching and worship For many such people the answer is found in the home church a small committed group of often diverse people who meet together in homes to pray eat sing study and share their lives Rob and Julia Banks have been involved with home churches for over twenty five years and they are wonderful guides to the world of the home church Together they have led seminars and assisted congregations in developing this style of gathering in many parts of the world Robert is also Professor of the Ministry of the Laity and Executive Director of the De Pree Leadership Center at Fuller Theological Seminary He is the author of many books including Paul's Idea of Community The Early House Churches in Their Cultural Setting Julia coordinates the community house in which she and Rob live with a group of students She is also active as a church planter and in building networks among house churches

The Changing Face of World Missions (Encountering Mission) Michael Pocock, Gailyn Van Rheenen, Douglas McConnell, 2005-10-01 The dramatic changes that have taken place both in global society and in the church have implications for how the church does missions in the twenty first century These trends include the rise of postmodernism the spiritual decline in the West and the advance of the gospel in the rest of the world and the impact of technology on society and missions The Changing Face of World Missions is for the mission minded church leader or lay person who wants to understand these trends Each chapter identifies and evaluates a trend examines it in light of Scripture and proposes a practical response Important terms are defined and sidebars help readers think through the issues on their own

Multisite Churches Dustin L. Slaton, 2024-02-13 The multisite church model has been consistently challenged by those who deem it unbiblical and incompatible with God's design for the local church but does Scripture support this claim In Multisite Churches pastor and church vitalist Dustin Slaton posits that congregational polity is compatible with the multisite model dismantling critiques with both urgency and care for the local church's future At a time when church fostering and church adoption are predicted to increase significantly the multisite church model is a solution that can support the adoption of churches Bringing in personal experience and erudite research Slaton heuristically demonstrates a methodological approach of ecclesiology with a theological framework for the multisite model fairly addressing both critics and supporters Multisite Churches is a resource for biblical ecclesiology with wide ranging benefits for both clergy and congregant Those prayerfully discerning whether they can transition to a multisite church in a biblical way and those who are interested in the topic will benefit from the guidance and insight provided in this timely resource

Church Comes Home Dave Barnhart, 2020-09-15 People have lost faith in all collective institutions government corporations the media and the church We are in the midst of a spiritual disaster a flood of biblical proportions and house churches provide lifeboats for people who are seeking a more authentic life giving form of Christian community Many people

remember that the early church started in homes but they don't understand that house churches are still a legitimate and viable model today. House churches can create the intimacy so many people are hungry for. They can nurture life-changing discipleship for individuals and create justice-centered communities. Networked house churches can become truly diverse multi-ethnic communities that spread the Gospel by emphasizing practices over programs. These communities de-center the preacher, opting instead for grassroots organizing, but they are not leaderless; they are leader-full. This book provides an alternative model for denominations and established churches to consider. It will help pastors reconnect with the traditions of community organizing, itinerant preaching, and discipleship training that sparked Methodism and other church movements in the United States.

Church Comes Home offers alternative ways to look at some of the problems facing our church and our culture.

Not Religion but Love Dave Andrews, 2012-02-01 In his acclaimed book *Christi Anarchy* Dave Andrews explored the ugly ruins of Christian history and outlined the radical vision of Jesus for personal and community renewal. In *Not Religion but Love* he shows how that vision can become a reality. With poignant real-life stories drawn from his Brisbane backyard, Dave Andrews gives us a practical guide to working out Jesus' agenda for love and justice in our own lives and neighborhoods. Complete with group exercises and an ample collection of extra resources for study, *Not Religion but Love* is a book to read at your own risk; it might change your life.

House Church and Mission Roger W. Gehring, 2004 In the last twenty-five years the contemporary house church movement has generated a great deal of interest among New Testament scholars and church practitioners. Research into early house churches has focused primarily on the architecture of these homes and on the corresponding social and theological implications. *House Church and Mission* offers scholars the first comprehensive summary of evidence concerning home churches in the New Testament while supplying pastors and lay leaders with a well-crafted discussion of the nature of church that explores the practical implications of house churches on outreach. Christians worshipped in private homes for the first three hundred years of the early church. In *House Church and Mission* Roger Gehring explores the missional significance of these house churches from the time of Jesus through Paul.

Sacred House Alan Andraeas, 2019-10-01 While the House Church Movement is gaining immense popularity throughout many denominational and independent faith communities, collectively standing as the largest denomination in the United States, sacramental and liturgical congregations are taking only the most tentative steps toward this venue of worship. Consequently, there exists a vacuum of guidelines or information to support this dynamic ministry model from a uniquely sacramental perspective. In this book Dr. Andraeas examines the scriptural foundations for liturgical worship, the biblical theological and historical precedents for house churches, and how a union between priestly liturgy and house church worship complement and support each other.

He concludes with a vigorous challenge for all sacramental and liturgical jurisdictions to engage their seminarians clergy and people in embracing this approach to church planting evangelism and community ministry while offering thoughtful and obtainable recommendations **Sacraments after Christendom** Andrew Francis, Janet Sutton, 2022-01-01 In

contemporary Western society the church has been pushed to the margins leading experts to describe the current era as a time after Christendom Many traditional churches and congregations are struggling a condition worsened by the COVID 19 pandemic regulations As the practice of churchgoing wanes the performance of the sacrament is called into question How can we bring the traditional communal experience of sacrament into the modern world In *Sacraments after Christendom* Andrew Francis and Janet Sutton tackle this question head on exploring and discussing the enactment of the sacrament in the context of church decline and an increasingly isolated world In doing so they deconstruct traditional perceptions and broaden our understanding of ritual and community in order to rediscover the truth of the sacrament *Transforming Daily Work into a Divine Vocation* Robert Banks, 2022-12-12 During the last few decades there has been an increasing interest in the connection between our faith and our work along with the growth of resources and organizations to bring the two into dialogue Despite this most Christians continue to feel that their daily work is less valuable than that of pastors missionaries or full time workers in a religious organization In a fresh and practical way this book sets out the biblical historical and theological grounds for challenging this commonly felt view It includes a range of engaging personal case studies that demonstrate the profound effect integrating one's work up into one's faith can have relationally institutionally and societally as well as evangelistically pastorally and missionally Attention is also given to the increasingly addictive fragmented and precarious nature of work today and to how we can spiritually find our way to discerning and expressing our unique God given vocation The final section of the book considers whether any of our work has eternal value and retells a compelling parable of what this might look like
