Dangerous Days on the Victorian Railways Terry Deary, 2014-05-22 The Victorians risked more than just delays when boarding a steam train Victorian inventors certainly didn't lack steam but while they squabbled over who deserved the title of The Father of the Locomotive and enjoyed their fame and fortune safety on the rails was not their priority Brakes were seen as a needless luxury and boilers had an inconvenient tendency to overheat and explode and in turn blow up anyone in reach Often recognised as having revolutionised travel and industrial Britain Victorian railways were perilous Disease accidents and disasters accounted for thousands of deaths and many more injuries While history has focused on the triumph of engineers the victims of the Victorian railways had names lives and families and they deserve to be remembered

Catastrophe, Gender and Urban Experience, 1648-1920 Deborah Simonton, Hannu Salmi, 2016-10-04 As Enlightenment notions of predictability progress and the sense that humans could control and shape their environments informed European thought catastrophes shook many towns to the core challenging the new world view with dramatic impact This book concentrates on a period marked by passage from a society of scarcity to one of expenditure and accumulation from ranks and orders to greater social mobility from traditional village life to new bourgeois and even individualistic urbanism The volume employs a broad definition of catastrophe as it examines how urban communities conceived adapted to and were transformed by catastrophes both natural and human made Competing views of gender figure in the telling and retelling of these analyses women as scapegoats as vulnerable as victims even as cannibals or conversely as defenders organizers of assistance inspirers of men and men in varied guises as protectors governors and police heroes leaders negotiators and honorable men Gender is also deployed linguistically to feminize activities or even countries Inevitably however these tragedies are mediated by myth and memory They are not neutral events whose retelling is a simple narrative Through a varied array of urban catastrophes this book is a nuanced account that physically and metaphorically maps men and women into the urban landscape and the worlds of catastrophe
