Unshackle the Dark Continent Eric Ikenna Nwokedi,2011-11-08 The need to dominate the planet and keep the western empire immortal has remained the driving force behind Americas policies towards some defenseless countries around the world Notable among them are African countries whose material and human resources has for hundred of years remained their target and primary source of raw material and energy that fuel their economic engine To dominate the planet war was waged both on the political economic as well as on the military front On the military front seven unified military commands are strategically created and located to oversee all the battle that will rage within each individual geographic regions Among the Unified Military Command is the newly created AFRICOM whose overall mission should be of concern to Africans mainly because it will not only oversee all the battle that will rage in the dark continent but will also be a source of intimidation to any potential rival to the installed puppet governments and the resources in the region On the financial front the World Bank IMF WTO and others have been in the fore front of the economic decay that bedeviled Nigeria in particular and Africa in general On the political front however the UN and their affiliated agencies are all agent of control and have all served specific purposes in dominating and controlling the world and have charted the course that favors only the chosen countries

Dark Continent Mark Mazower,2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe s past present and future A splendid book The New York Times Book Review Dark Continent provides an alternative history of the twentieth century one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take Mark Mazower strips away myths that have comforted us since World War II revealing Europe as an
