Dark Fantasies Black Female White Male Bwvm:

Blackness and Sexualities Michelle M. Wright, Antje Schuhmann, 2007 With contributions from leading scholars from various disciplines this title offers analyses and critiques that span three continents and looks at topics such as the secret marketing of black female pornography to white American men and the eroticization of colonial legacies in contemporary German media

Staging Blackness and Performing Whiteness in Eighteenth-Century German Drama Wendy Sutherland, 2017-05-15 Focusing on eighteenth century cultural productions Wendy Sutherland examines how representations of race in philosophy anthropology aesthetics drama and court painting influenced the construction of a white bourgeois German self Sutherland positions her work within the framework of the transatlantic slave trade showing that slavery colonialism and the triangular trade between Europe West Africa and the Caribbean function as the global stage on which German bourgeois dramas by Friedrich Wilhelm Ziegler Ernst Lorenz Rathlef and Theodor K rner and a novella by Heinrich von Kleist on which K rner s play was based were performed against a backdrop of philosophical and anthropological influences Plays had an important role in educating the rising bourgeois class in morality Sutherland argues with fathers and daughters offered as exemplary moral figures in contrast to the depraved aristocracy At the same time black female protagonists in nontraditional dramas represent the boundaries of physical beauty and marriage eligibility while also complicating ideas of moral beauty embodied in the concept of the beautiful soul Her book offers convincing evidence that the eighteenth century German stage grappled with the representation of blackness during the Age of Goethe even though the German states were neither colonial powers nor direct participants in the slave trade

Fear of the Dark Lola Young, 2006-05-17 Studies of the portrayal of black people in film have tended to be studies for the ideological correctness of the depictions of black people and the extent to which they rely on stereotypes By closely examining films such as *Sapphire* 1959 *Leo the Last* 1969 *Black Joy* 1977 *Playing Away* 1986 and *Mona Lisa* 1987 and situating them in their historical and social context *Fear of the Dark* develops a particular critical perspective on the film portrayal of black female sexuality and questions the extent to which black film makers have challenged stereotypes

Hollywood Fantasies of Miscegenation Susan Courtney, 2021-12-07 *Hollywood Fantasies of Miscegenation* analyzes white fantasies of interracial desire in the history of popular American film From the first interracial screen kiss of 1903 through the Production Code s nearly thirty year ban on depictions of miscegenation to the contemplation of mixed marriage in *Guess Who s Coming to Dinner* 1967 this book demonstrates a long popular yet underexamined record of cultural fantasy at the movies With ambitious new readings of well known films like D W Griffith s 1915 epic *The Birth of a Nation* and of key forgotten films and censorship documents Susan Courtney argues that dominant fantasies of miscegenation have had a profound impact on the form and content of American cinema What does it mean Courtney asks that the image of the black rapist became a virtual clich while the sexual exploitation of black women by white men under slavery was perpetually repressed What has this popular film legacy invited

spectators to remember and forget How has it shaped our conceptions of and relationships to race and gender Richly illustrated with more than 140 images *Hollywood Fantasies of Miscegenation* carefully attends to cinematic detail revising theories of identity and spectatorship as it expands critical histories of race sex and film Courtney s new research on the Production Code s miscegenation clause also makes an important contribution inviting us to consider how that clause was routinely interpreted and applied and with what effects **Ebony** ,1971-10 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine **Michael Jackson and the Quandary of a Black Identity** Sherrow O. Pinder,2021-08-01 In Michael Jackson and the Quandary of a Black Identity Sherrow O Pinder explores the ways in which the late singer s racial identification process problematizes conceptualizations of race and the presentation of blackness that reduces blacks to a bodily mark Pinder is particularly interested in how Michael Jackson simultaneously performs his racial identity and posits it against strict binary racial definitions neither black nor white While Jackson s self fashioning deconstructs and challenges the corporeal notions of natural bodies and fixed identities negative readings of the King of Pop fuel epithets such as weird or freak subjecting him to a form of antagonism that denies the black body its self determination Thus for Jackson racial identification becomes a deeply ambivalent process which leads to the fragmentation of his identity into plural identities Pinder shows how Jackson as a racialized subject is discursively confined to a third space a liminal space of ambivalence
