Danger No L Regard Lombre

Elliott Mansfield Grant

Danger No L Regard Lombre:

French grammar, for the use of colleges and public schools, by H. Lallemand and J. Tempère Henri Lallemand, 1883

Dangers of Youth Briony Neilson, 2025-05-13 French society at the turn of the twentieth century was deeply preoccupied with the conduct and management of its young people especially those who had broken the law Legislators and social reformers of the Third Republic grappled with the question of whether children who committed offences should be held criminally responsible for their actions or if their age should exempt them from liability *Dangers of Youth* examines foundational debates about young lawbreakers their criminal liability and their appropriate treatment at the origins of France's modern juvenile justice system In a context of overcrowded prisons frequent recidivism a sluggish birth rate and growing international tension young offenders were viewed as harbingers of the nation's decline and as dangerous agents of disorder At the same time young people including juvenile delinquents were seen as victims of neglect and necessary vehicles for national regeneration In 1912 legislators established a distinct criminal justice system for juveniles enshrining probation at its heart and decriminalizing offences committed by children under the age of thirteen Legislators drew on recommendations from France's pre eminent penal reform association the Société générale des prisons introducing measures that enabled the state to intervene as never before in children's upbringing *Dangers of Youth* is a detailed historical account of the emergence of greater age consciousness in the criminal justice system in modern France which contributed to the creation of a distinct branch of justice for juveniles **The Manuscripts of the Earl of Carlisle, Preserved at Castle Howard** Great Britain.

Royal Commission on Historical Manuscripts, Frederick Howard Earl of Carlisle, 1897 The manuscripts consist of a small number of documents of the 13th to 17th centuries and an extensive collection of eighteenth century papers including the private and official correspondence of the Howard family with most of the important men of the period Among the public documents are papers and minutes relating to the American War of Independence the negotiations with the Americans in 1778-80 and the fifth Earl of Carlisle's mission to America as British commissioner Of the private correspondence the largest group contains the letters of George Selwyn to the fifth Earl of Carlisle 1767-1790 [A Dangerous Liberty](#) James D.

Garrison, 2009 Thomas Gray's *An Elegy Written in a Country Churchyard* enjoyed extraordinary popular success in Europe where it was widely translated imitated adapted and in various ways assimilated into the continental literatures The history of the *Elegy*'s circulation on the continent demonstrates the importance of the poem to the romantic generation of European poets while appreciation of this history serves to illuminate modern critical approaches to the poem's often uncertain or ambiguous meaning *Edmond Jabes and the Hazard of Exile* Steven Jaron, 2017-12-02 For a man who no longer has a homeland writing becomes a place to live Theodor Adorno The Jewish writer Edmond Jabes born in Cairo in 1912 wrote explicitly from the perspective of exile once he arrived in France after the Suez crisis However Jaron argues exile was a predominant theme even before Jabes left Egypt He brings to light the author's associations with other francophone writers

in Egypt especially those affiliated with the Surrealists but shows that metropolitan France exerted a greater pull Drawing on unpublished archival and rare printed sources Jaron examines how Jabes opposed anti-Semitism during the 1930s and later placed the Shoah at the heart of his acclaimed *Livres des Questions* 1963 73

French Poetry and Modern Industry, 1830-1870 Elliott Mansfield Grant, 1927

The Substance and the Shadow Paul Smith, 2007-10-15 In 1878 the author Marius Roux a noted friend of Emile Zola and Paul Cézanne published *La proie et l'ombre* a little known roman clef featuring a thinly disguised Cézanne as the main character Germain Rambert The text prominently features several conversations drawn from famous Impressionist discussions on the nature of art *La proie et l'ombre* offers a unique insight into the thoughts and lives of the Impressionists Cézanne scholar Paul Smith has resurrected this all but forgotten novel recognizing its value in expanding our understanding of the Impressionists world in general and Cézanne's in particular This translation titled *The Substance and the Shadow* also brings to the foreground the effects of a burgeoning capitalist economy on the artistic practices of the period With changes in the Salon and the dealer system art in France was no longer reserved for the privileged few and artists increasingly found themselves attempting to appeal to the merchant classes Art had become a commercial endeavor in ways never before imagined and the story details Rambert's and by extension Cézanne's attempts to cope with the shift In a substantial introductory essay Paul Smith discusses the nature of the roman clef and its use as a historical document and provides an examination of the relationship between Roux's characters and their real life counterparts

Local Politics in Jordan and Morocco Janine A. Clark, 2018-04-03 In recent years authoritarian states in the Middle East and North Africa have faced increasing international pressure to decentralize political power Decentralization is presented as a panacea that will foster good governance and civil society helping citizens procure basic services and fight corruption Two of these states Jordan and Morocco are monarchies with elected parliaments and recent experiences of liberalization Morocco began devolving certain responsibilities to municipal councils decades ago while Jordan has consistently followed a path of greater centralization Their experiences test such assumptions about the benefits of localism Janine A Clark examines why Morocco decentralized while Jordan did not and evaluates the impact of their divergent paths ultimately explaining how authoritarian regimes can use decentralization reforms to consolidate power *Local Politics in Jordan and Morocco* argues that decentralization is a tactic authoritarian regimes employ based on their coalition strategies to expand their base of support and strengthen patron-client ties Clark analyzes the opportunities that decentralization presents to local actors to pursue their interests and lays out how municipal level figures find ways to use reforms to their advantage In Morocco decentralization has resulted not in greater political inclusivity or improved services but rather in the entrenchment of pro-regime elites in power The main Islamist political party has also taken advantage of these reforms In Jordan decentralization would undermine the networks that benefit elites and their supporters Based on

extensive fieldwork *Local Politics in Jordan and Morocco* is an important contribution to Middle East studies and political science that challenges our understanding of authoritarian regimes survival strategies and resilience *Journal of the ...*
