Dangerous Ground Americas Failed Arms Control Policy From Fdr To Obama:

Dangerous Ground Scott Ritter, 2010-10 In *Dangerous Ground* Scott Ritter one of the world's leading experts on arms control tells a bold and revisionist account of the inseparable histories of the post World War II American presidency and nuclear weapons Unpacking sixty years of nuclear history Ritter shows that nuclear weapons have become such a fixture that they define present day America on economic military political and moral grounds And despite fears of global nuclear proliferation the greatest threat to international stability Ritter argues is the US's addiction to nuclear weapons Even in light of Barack Obama's historic speech in April 2009 which called for the eventual abolition of nuclear weapons America continues to guard a significant and dangerous nuclear stockpile The notion that we are more secure with nuclear weapons is deeply entrenched in the American psyche and virulently protected by forces in the US establishment As long as this paradigm persists Ritter suggests there will be no fundamental US policy change and as such no change in global nuclear proliferation

Obama and the Bomb Frank Leith Jones, 2025-11-20 This book is the first study of how President Barack Obama and his administration used the negotiation and ratification of an arms control treaty the New Strategic Arms Reduction Treaty New START as a vehicle for advancing one of the president's primary foreign policy objectives a reset of US relations with Russia in the early years of his first term of office It is a study of the administration's efforts to move from a president's strategic vision to defining that vision as a policy priority and ultimately successfully negotiating what the president deemed the first and most important element of the reset agenda

Dangerous Ground Scott Ritter, 2010-03-30 In *Dangerous Ground* Scott Ritter one of the world's leading experts on arms control tells a bold and revisionist account of the inseparable histories of the post World War II American presidency and nuclear weapons Unpacking sixty years of nuclear history Ritter shows that nuclear weapons have become such a fixture that they define present day America on economic military political and moral grounds And despite fears of global nuclear proliferation the greatest threat to international stability Ritter argues is the US's addiction to nuclear weapons Even in light of Barack Obama's historic speech in April 2009 which called for the eventual abolition of nuclear weapons America continues to guard a significant and dangerous nuclear stockpile The notion that we are more secure with nuclear weapons is deeply entrenched in the American psyche and virulently protected by forces in the US establishment As long as this paradigm persists Ritter suggests there will be no fundamental US policy change and as such no change in global nuclear proliferation

Scorpion King Scott Ritter, 2020-06-01 We may be likened to two scorpions in a bottle each capable of killing the other but only at the risk of his own life ROBERT OPPENHEIMER *Scorpion King* America's Suicidal Embrace of Nuclear Weapons from FDR to Trump is a history of America's corrosive affair with nuclear weapons and the failed efforts to curb this radioactive ardor through arms control The book's title refers to the allusion by Robert Oppenheimer the father of the American atomic bomb to dueling scorpions when discussing the deadly nuclear rivalry between the US and Soviet Union and signals the dangers inherent in

the resumption of the perilous US drive for nuclear supremacy Providing a vivid and gripping A Z history of America s deceptive use of arms control as a means of actually furthering its quest for nuclear dominance Ritter sheds light on a contradictory US agenda little understood by the lay reader while providing sufficient detail and context to engage the specialist Originally published by Nation Books in 2010 under the title Dangerous Ground this new version has been streamlined and significantly expanded to account for the failed arms control policies of the Obama administration and the rejection of arms control as a policy during the first term of the Trump administration The Trump administration has pulled out of one landmark arms control treaty the 1987 Intermediate Nuclear Forces treaty and is threatening to let another the 2010 New START treaty expire The terrifying Cuban missile crisis of 1962 demonstrated the apocalyptic folly of nuclear arsenals operating without limitation and led to reciprocal constraints that moderated the nuclear ambitions of both the US and Soviet Union Those constraints for the most part no longer exist The next missile crisis could prove terminal for humanity Scorpion King is a book that can and should occupy the shelves of academic libraries diplomats and military professionals as well as make the reading lists of concerned citizens given the dangerous state of US and Russian relations now hovering on the cusp of a new and increasingly hazardous nuclear arms race It provides a road map showing how we collectively returned to the nuclear cliff edge and shines light on the possibility of an exit from a seemingly endless dark tunnel Providing context for the forthcoming 2020 Review of the Non Proliferation Treaty Scorpion King is must reading for an imperilled world

Competitive Arms Control John D. Maurer,2022-01-01 The essential history of the Strategic Arms Limitation Talks SALT during the Nixon Administration How did Richard Nixon a president so determined to compete for strategic nuclear advantage over the Soviet Union become one of the most successful arms controllers of the Cold War Drawing on newly opened Cold War archives John D Maurer argues that a central purpose of arms control talks for American leaders was to channel nuclear competition toward areas of American advantage and not just international cooperation While previous accounts of the Strategic Arms Limitation Talks SALT have emphasized American cooperative motives Maurer highlights how Nixon National Security Advisor Henry Kissinger and Secretary of Defense Melvin Laird shaped negotiations balancing their own competitive interests with proponents of cooperation while still providing a coherent rationale to Congress Within the arms control agreements American leaders intended to continue deploying new weapons and the arms control restrictions as negotiated allowed the United States to sustain its global power contain communism and ultimately prevail in the Cold War

Apocalyptic Crimes Ronald C. Kramer,2025-03-11 In 2023 the Bulletin of the Atomic Scientists set the iconic Doomsday Clock to ninety seconds to midnight the closest to midnight or civilization ending apocalypse it has ever been Designed at the onset of the Cold War amid new fears of atomic weapons the Doomsday Clock is a symbolic countdown to annihilation Now a generation later the world is more vulnerable than ever to the nuclear weapons it sought to warn against In Apocalyptic Crimes Ronald C Kramer reconsiders the immense danger these weapons pose to humanity

examining the use threat to use and continued possession of nuclear weapons from a criminological perspective Kramer argues that any country holding on to its nuclear arsenal including the United States is committing a criminal act Offering a sharp rebuke to the common claim that nuclear stockpiles serve to deter the escalation of conflict Apocalyptic Crimes emphasizes the harm caused by the mere possession of these deadly weapons It further considers the culpability of political officials acting as representatives of the state whose threatening statements about nuclear weapons contain actions or omissions that violate specific international laws But Kramer also shows how a nuclear apocalypse might be averted and offers a pathway to disarmament Through critical analysis and a specific criminology of nuclear weapons Kramer outlines the political actions necessary to rewind the Doomsday Clock and pull the world back from the brink of destruction before the clock strikes midnight
