Latin Literatures of Medieval and Early Modern Times in Europe and Beyond Francesco Stella, Lucie Doležalová, Danuta Shanzer, 2024-07-15 The textual heritage of Medieval Latin is one of the greatest reservoirs of human culture Repertories list more than 16 000 authors from about 20 modern countries Until now there has been no introduction to this world in its full geographical extension Forty contributors fill this gap by adopting a new perspective making available to specialists but also to the interested public new materials and insights The project presents an overview of Medieval and post medieval Latin Literatures as a global phenomenon including both Europe and extra European regions It serves as an introduction to

medieval Latin's complex and multi-layered culture whose attraction has been underestimated until now. Traditional overviews mostly flatten specificities yet in many countries medieval Latin literature is still studied with reference to the local history. Thus the first section presents 20 regional surveys including chapters on authors and works of Latin Literature in Eastern Central and Northern Europe, Africa, the Middle East, Asia and the Americas. Subsequent chapters highlight shared patterns of circulation, adaptation and exchange and underline the appeal of medieval intermediality as evidenced in manuscripts, maps, scientific treatises and iconotexts and its performativity in narrations, theatre, sermons and music. The last section deals with literary interfaces that is motifs or characters that exemplify the double-sided or the long-term transformations of medieval Latin mythologemes in vernacular culture both early modern and modern such as the legends about King Arthur, Faust and Hamlet.

The Oxford Handbook of Medieval Latin Literature Ralph Hexter, David Townsend, 2012-01-20. The twenty-eight essays in this handbook represent the best current thinking in the study of Latin language and literature in the Middle Ages. Contributing authors both senior scholars and gifted younger thinkers among them not only illuminate the field as traditionally defined but also offer fresh insights into broader questions of literary history, cultural interaction, world literature and language in history and society. Their studies vividly illustrate the field's complexities on a wide range of topics including canonicity, literary styles and genres and the materiality of manuscript culture. At the same time they suggest future possibilities for the necessarily provisional and open-ended work essential to the pursuit of medieval Latin studies. The overall approach of *The Oxford Handbook of Medieval Latin Literature* makes this volume an essential resource for students of the ancient world interested in the prolonged afterlife of the classical period's cultural complexes for medieval historians, for scholars of other medieval literary traditions and for all those interested in delving more deeply into the fascinating more than millennium-long passage between the ancient Mediterranean world and what we consider modernity.

Dante: De Vulgari Eloquentia Dante Alighieri, 1996-10-10. *De vulgari eloquentia* written by Dante in the early years of the fourteenth century is the only known work of medieval literary theory to have been produced by a practising poet and the first to assert the intrinsic superiority of living vernacular languages over Latin. Its opening consideration of language as a sign system includes foreshadowings of twentieth-century semiotics and later sections contain the first serious effort at literary criticism based on close analytical reading since the classical era. Steven Botterill here offers an accurate Latin text and a readable English translation of the treatise together with notes and introductory material thus making available a work which is relevant not only to Dante's poetry and the history of Italian literature but to our whole understanding of late medieval poetics, linguistics and literary practice.

Generation and Degeneration Valeria Finucci, Kevin Brownlee, 2001-03-13. This distinctive collection explores the construction of genealogies in both the biological sense of procreation and the metaphorical sense of heritage and cultural patrimony. Focusing specifically on the discourses that inform such genealogies, *Generation and Degeneration* moves from Greco-Roman times to the recent past to retrace

generational fantasies and discords in a variety of related contexts from the medical to the theological and from the literary to the historical. The discourses on reproduction, biology, degeneration, legacy and lineage that this book broaches not only bring to the forefront concepts of sexual identity and gender politics but also show how they were culturally constructed and reconstructed through the centuries by medicine, philosophy, the visual arts, law, religion and literature. The contributors reflect on a wide range of topics from what makes men manly to the identity of Christ's father from what kinds of erotic practices went on among women in sixteenth-century seraglios to how men's hemorrhoids can be variously labeled. Essays scrutinize stories of menstruating males and early writings on the presumed inferiority of female bodily functions. Others investigate a psychomorphology of the clitoris that challenges Freud's account of lesbianism as an infantile stage of sexual development and such topics as the geographical origins of medicine and the materialization of genealogy in the presence of Renaissance theatrical ghosts. This collection will engage those in English, comparative Italian, Spanish and French studies as well as in history, history of medicine and ancient and early modern religious studies. Contributors: Kevin Brownlee, Marina Scordilis, Brownlee, Elizabeth Clark, Valeria Finucci, Dale Martin, Gianna Pomata, Maureen Quilligan, Nancy Siraisi, Peter Stallybrass, Valerie Traub. *The Sense of Sound* Emma Dillon, 2012-04-27. The Sense of Sound is a radical recontextualization of French song 1260-1330. Situating musical sound against sonorities of the city, madness, charivari and prayer, it argues that the effect of verbal confusion popular in music abounds with audible associations and that there was meaning in what is often heard as nonsensical. **A Grammar of Piedmontese** Mauro Tosco, Emanuele Miola, Nicola Duberti, 2023-06-05. Cere, madame, and o mabon. Less than a century ago this was one of the most frequent greetings heard in Piedmont, a region in northwest Italy. Today, however, Piedmontese is severely endangered. This volume presents the first widely accessible and comprehensive grammatical description of the contemporary koine, covering its phonetics, phonology, morphology, syntax, pragmatics and typology, and drawing examples from both oral and written sources. Data on the history of the language and the local dialects and notes on revitalization efforts are also included. *Dante and the Practice of Humility* Rachel K. Teubner, 2023-07-13. In this book Rachel Teubner offers an exploration of humility in Dante's Divine Comedy, arguing that the poem is an ascetical exercise concerned with training its author gradually in the practice of humility rather than being a reflection of authorial hubris. A contribution to recent scholarship that considers the poem to be a work of self-examination, her volume investigates its scriptural, literary and liturgical sources, also offering fresh feminist perspectives on its theological challenges. Teubner demonstrates how the poetry of the Comedy is theologically significant, focusing especially on the poem's definition of humility as ethically and artistically meaningful. Interrogating the text canto by canto, she also reveals how contemporary tools of literary analysis can offer new insights into its meaning. Undergraduate and novice readers will benefit from this companion, just as theologians and scholars of medieval religion will be introduced to a growing body of scholarship exploring Dante's religious thought.
