Daoist Mystical Philosophy Livia Kohn, 2007 Livia Kohn presents the first Western introduction to this aspect of traditional Chinese religious and culture Through her careful textual study and fully annotated translation of the Scripture of Western Ascension she delineates the history structure and contents of what mystical thought meant within the Daoist religion She also discusses the religious background of the text and provides detailed analyses of philosophical concepts in chapters called The Physical Universe Mind Knowledge Language and The Way of the Sage

*Early Chinese Mysticism* Livia Kohn, 2020-10-06 Did Chinese mysticism vanish after its first appearance in ancient Taoist philosophy to surface only after a thousand years had passed when the Chinese had adapted Buddhism to their own culture This first integrated survey of the mystical dimension of Taoism disputes the commonly accepted idea of such a hiatus Covering the period from the Daode jing to the end of the Tang Livia Kohn reveals an often misunderstood Chinese mystical tradition that continued through the ages Influenced by but ultimately independent of Buddhism it took forms more various than the quietistic withdrawal of Laozi or the sudden enlightenment of the Chan Buddhists On the basis of a new theoretical evaluation of mysticism this study analyzes the relationship between philosophical and religious Taoism and between Buddhism and the native Chinese tradition Kohn shows how the quietistic and socially oriented Daode jing was combined with the ecstatic and individualistic mysticism of the Zhuangzi with immortality beliefs and practices and with Buddhist insight meditation mind analysis and doctrines of karma and retribution She goes on to demonstrate that Chinese mysticism a complex synthesis by the late Six Dynasties reached its zenith in the Tang laying the foundations for later developments in the Song traditions of Inner Alchemy Chan Buddhism and Neo Confucianism

**Daoism Explained** Hans-Georg Moeller, 2011-04-15 Hans Georg Moeller has achieved the perfect

blend with *At the Center of the Circle* it is both a fascinating introduction to Daoist thought as well as an original and insightful contribution to Eastern philosophy. This book will take the place of *The Tao of Pooh* by Hoff. Like that book, *At the Center of the Circle* offers a comprehensive presentation of Daoist philosophy that is interesting and easy to follow. Two ways the present book differs from the earlier classic are 1) this one has a more rigorous philosophical grounding so teachers will not hesitate to use it in classes and 2) it takes into account the research and discoveries in the decades following the release of the *Pooh* book. It is written for a general readership interested in Asian thought and religions as well as for specialists in the field of comparative and Chinese philosophy. This work is unique in its focus because it offers a coherent interpretation of the general tenets of Daoist philosophy on the basis of the imagery employed in various Daoist texts and by explaining how those texts and images connect to each other and how they were actually understood by ancient Chinese philosophers. The study sheds new light on many important Daoist allegories by showing how modern translations often concealed the original wit and humor of the Chinese original or imposed alien philosophical frameworks on them. It attempts to take away the metaphysical and Christian disguises with which Daoist philosophy has been obscured by Western interpretations in the past one hundred years. By explaining the differences between Daoism and traditional Western modes of thought, it also shows how Daoism might contribute to the present day endeavor of overcoming the latter. The study begins with an introductory section providing basic information on the texts of classical Daoism: Laozi, Zhuangzi, the history of Daoism, its political and religious dimensions, and the meaning of the term *Dao*. The first chapter of the book analyzes often from a new perspective Daoist images such as water, the root, femininity, and allegories such as the famous *Dream of the Butterfly* and the *Fishnet Allegory*, and explains their philosophical significance. The second chapter, referring to those images and allegories, outlines several philosophical concepts of Daoism, including life and death, nature, art, ethics, and the body. The third chapter offers a more abstract interpretation of specific structural features of Daoist philosophy by putting emphasis on one core structure: the circle and its empty center. This is obviously what the title of the book refers to and compares or rather contrasts it with Western, especially Christian, thought. The fourth chapter discusses the relation between Daoism and Zen or Chan Buddhism and concludes with an outlook on the relevance of Daoism for contemporary philosophy.

*Mysticism and Meaning: Multidisciplinary Perspectives* Alex S. Kohav, 2019. The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences. The collection brings together researchers from such disparate fields as philosophy, psychology, history of religion, cognitive poetics, and semiotics in an effort to ascertain the question of mysticism's meaning through pertinent up-to-date multidisciplinary discussion. The discussion commences with Editor's Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas. One thread within the volume provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as

well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity's origins being steeped in mystical praxis and four essays highlight mysticism's formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy's relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States

**The Contemplative Foundations of Classical Daoism** Harold D. Roth, 2021-05-01 In *The Contemplative Foundations of Classical Daoism* Harold D Roth explores the origins and nature of the Daoist tradition arguing that its creators and innovators were not abstract philosophers but rather mystics engaged in self exploration and self cultivation which in turn provided the insights embodied in such famed works as the Daodejing and Zhuangzi In this compilation of essays and chapters representing nearly thirty years of scholarship Roth examines the historical and intellectual origins of Daoism and demonstrates how this distinctive philosophy emerged directly from practices that were essentially contemplative in nature In the first part of the book Roth applies text critical methods to derive the hidden contemplative dimensions of classical Daoism In the second part he applies a contemplative hermeneutic to explore the relationship between contemplative practices and classical Daoist philosophy and in so doing brings early Daoist writings into conversation with contemporary contemplative studies To this he adds an introduction in which he reflects on the arc and influence on the field of early Chinese thought of this rich vein of scholarship and an afterword in which he applies both interpretive methods to the vexing question of the authorship of the Inner Chapters of the Zhuangzi *The Contemplative Foundations of Classical Daoism* brings to fruition the cumulative investigations and observations of a leading figure in the emerging field of contemplative studies as they pertain to a core component of early Chinese thought

tradition what fervent Taoists did and how practitioners saw their path and goals The Taoist Experience is unique in that it presents the whole of Taoist tradition in the very words of its active practitioners It conveys not only a sense of the depth of the Taoist religious experience but also of the underlying unity of the various schools and strands **Teaching Mysticism** William B. Parsons, 2011-10-24 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom This volume addresses the diverse literature surrounding mysticism in four interrelated parts The first part includes essays on the tradition and context of mysticism devoted to drawing out and examining the mystical element in many religious traditions The second part engages traditions and religious cultural strands in which mysticism is linked to other terms such as shamanism esotericism and Gnosticism The volume's third part focuses on methodological strategies for defining mysticism with respect to varying social spaces The final essays show how contemporary social issues and movements have impacted the meaning study and pedagogy of mysticism Teaching Mysticism presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces It surveys the broad range of meanings of mysticism its utilization in the traditions the theories and methods that have been used to understand it and provides critical insight into the resulting controversies
