Jim Turner, 2010-05 Why are people drawn to alternative religions that deviate from the norm of Christian beliefs Why do they stay What compels them to cling to a false dogma even in the face of evidence that their beliefs are in error Why do they engage in scriptural gymnastics in defense of beliefs that have no grounding in Christian theology Why do they tolerate abusiveness from charismatic leaders and cede personal freedom Why are they willing to defend these leaders and their institutions to the bitter end After a lifetime of spiritual incarceration Jim Turner began studying the cult mentality in order to better understand his actions He researched religious cults and their practices and traced their teachings throughout history as they found their way into the New Religions His studies have convinced him that there is indeed nothing new under the sun New Religions offer amended ideas that identified past cults Modern cults have extracted beliefs from past groups and added a spin that presents them as original and of course inspired Psychological manipulation plays a significant role in the development and continuation of modern cults but Jim Turner has presented a convincing argument that the psychological condition and willingness of cultists to surrender their freedom to cult leaders and their irrational tendencies to elevate a revered leader to a semi divine level are equally responsible for the advancement of cults Follow the author through the early stages of cult indoctrination the personal abuses he experienced at the hands of the cult his personal choices as he rose through the ranks of the cult and his eventual enlightenment to the deceptiveness of the cult led by Herbert W Armstrong Walk with him out of the darkness of cultic deception into the glorious light of the Grace of God through Jesus Christ
