The Irish Short Story at the Turn of the Twenty-First Century Madalina Armie, 2022-12-30 In the mid 1990s Ireland was experiencing the best of times The Celtic Tiger seemed to instil in the national consciousness that poverty was a problem of the past The impressive economic performance ensured that the Republic occupied one of the top positions among the world's economic powers During the boom dissident voices continuously criticised what they considered to be a mirage identifying the precariousness of its structures and foretelling its eventual crash The 2008 recession proved them right Throughout this time the Irish contemporary short story expressed distrust Enabled by its capacity to reflect change with immediacy and dexterity the short story saw through the smokescreen created by the Celtic Tiger discourse of well being It reinterpreted and captured the worst and the best of the country and became a bridge connecting tradition and modernity The major objective of this book is to analyse the interactions between fiction and reality during this period in Ireland by studying the short stories written by old and emergent voices published between the birth of the Celtic Tiger in 1995 up to its immediate aftermath in 2013

From the moment Claire sets foot on the island, something seems amiss. Skeletal remains have just been found. There are other newer disturbances too. Menacing texts. A ruined wedding dress. Paul Delaney, 2025-03-28. This original new study explores the recent flowering of short fiction in Ireland, analysing the production, dissemination, and reception of the short form in the twenty-first century, and reading contemporary short stories in their many configurations and guises. This volume covers twenty-five years of Irish writing, beginning in late 1997 with the establishment of the innovative literary periodical *The Stinging Fly* and concluding in 2022. The book is structured in five parts, with each part focusing on a particular mode of publication: periodicals, single-author volumes, short-story cycles, edited anthologies, and small or independent presses. Each part includes a series of case studies, while also engaging with a diverse range of short-story criticism and theory, both comparative and Irish-centered. *Anthologisation and Irish Short Fiction* brings different writers at distinct stages of their careers into conversation, and this volume aims to illuminate the contemporaneous value of this body of work, its innovative and varied use, and the diversity of its practice. Particular attention is also shown to the fluidity of the short form, to its capacity to disrupt and arrest, and to its progressive, writerly potential.
