A Twentieth-century Literature Reader Suman Gupta,David Johnson,2005 This critical Reader is the essential companion to any course in twentieth century literature Drawing upon the work of a wide range of key writers and critics the selected extracts provide a literary historical overview of the twentieth century insight into theoretical discussions around the purpose value and form of literature which dominated the century closer examination of representative texts from the period around which key critical issues might be debated Clearly conveying the excitement generated by twentieth century literary texts and by the provocative critical ideas and arguments that surrounded them this reader can be used alongside the two volumes of *Debating Twentieth Century Literature* or as a core text for any module on the literature of the last century Texts examined in detail include Chekhov s *The Cherry Orchard* Mansfield s *Short Stories* poetry of the 1930s Gibbon s *Sunset Song* Eliot s *Prufrock* Brecht s *Galileo* Woolf s *Orlando* Okigbo s *Selected Poems* du Maurier s *Rebecca* poetry by Ginsburg and O Hara Dick s *Do Androids Dream of Electric Sheep* Puig s *Kiss of the Spiderwoman* Beckett s *Waiting for Godot* Heaney s *New Selected Poems* 1966 1987 Gurnah s *Paradise* and Barker s *The Ghost Road* **Learning from Other Worlds** Patrick Parrinder,2001 A definite look at the state of science fiction studies today that surveys the field from Hugo Gernsback to the present *Disputing the Deluge* Darko Suvin,2021-12-02 Featured on the 2021 Locus Recommended Reading List For over 50 years Darko Suvin has set the agenda for science fiction studies through his innovative linking of scifi to utopian studies formalist and leftist critical theory and his broader engagement with what he terms political epistemology *Disputing the Deluge* joins a rapidly growing renewal of critical interest in Suvin s work on scifi and utopianism by bringing together in a single volume 24 of Suvin s most significant interventions in the field from the 21st century with an Introduction by editor Hugh O Connell and a new preface by the author Beginning with writings from the early 2000s that investigate the function of literary genres and reconsider the relationship between science fiction and fantasy the essays collected here each a brilliant example of engaged thought highlight the value of scifi for grappling with the key events and transformations of recent years Suvin s interrogations show how speculative fiction has responded to 9 11 the global war on terror the 2008 economic collapse and the rise of conservative populism along with contemporary critical utopian analyses of the Capitalocene the climate crisis COVID 19 and the decline of democracy By bringing together Suvin s essays all in one place this collection allows new generations of students and scholars to engage directly with his work and its continuing importance and timeliness *The Science Fiction of Poetics and the Avant-Garde Imagination* Michael Golston,2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is

a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston's project is a throwaway line in Robert Smithson's *Entropy* and the New Monuments about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston's critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn's long poem *Gunslinger* the discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston's restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form

Between Human and Divine Mary Reichardt,2010 An introduction to recent and emerging Catholic literary works and artists *The Occult Imagination in Britain, 1875-1947* Christine Ferguson,Andrew Radford,2017-12-15 Between 1875 and 1947 a period bookended respectively by the founding of the Theosophical Society and the death of notorious occultist celebrity Aleister Crowley Britain experienced an unparalleled efflorescence of engagement with unusual occult schema and supernatural phenomena such as astral travel ritual magic and reincarnationism Reflecting the signal array of responses by authors artists actors impresarios and popular entertainers to questions of esoteric spirituality and belief this interdisciplinary collection demonstrates the enormous interest in the occult during a time typically associated with the rise of secularization and scientific innovation The contributors describe how the occult realm functions as a turbulent conceptual and affective space shifting between poles of faith and doubt the sacrosanct and the profane the endemic and the exotic the forensic and the fetishistic Here occultism emerges as a practice and epistemology that decisively shapes the literary enterprises of writers such as Dion Fortune and Arthur Machen artists such as Pamela Colman Smith and revivalists such as Rolf Gardiner
