Darwin S Enigma Darwin S Enigma:

Darwin's Enigma Luther Sunderland, 1998-08-01 Evolutionists have long known that Charles Darwin's original argument against his own theory that a lack of fossil evidence of transitional forms would reduce him to an embarrassing footnote in history was screamingly true. No legitimate fossil evidence exists that shows one species changing into another. This startling realization led Luther Sunderland to an exhaustive search of the subject and his findings show clearly that evolution is a theory in disarray. From his own interviews with leading evolutionists and an examination of the fossil evidence, Sunderland shows that the Enigma of Darwin's anti-God philosophy is that the facts show it is anything but rock solid. Before his death in 1987, Luther Sunderland had garnered the respect of creationists worldwide for his investigative writing of the evolution controversy. After obtaining an engineering degree from Penn State University, Sunderland spent 30 years developing automatic flight control systems for the General Electric Company. **DARWIN S ENIGMA** remains an intensely popular work on the theory of origins.

Darwin's Enigma Fred Harding, 2017-01-18 Alfred Wallace, the co-discoverer of Natural Selection, wrote: "Man's Naked Skin could not have been produced by Natural Selection. It seems to me then to be absolutely certain that Natural Selection could not have produced man's hairless body by the accumulation of variations from a hairy ancestor. The evidence all goes to show that such variations could not have been useful but must on the contrary have been to some extent hurtful." Darwin and Wallace argued about the issue of human hairlessness for a number of years, but in the end, Darwin conceded that Wallace had been right. Darwin wrote in his book *The Descent of Man*, published in 1871, an acknowledgement to Wallace's arguments: "The loss of hair is an inconvenience and probably an injury to man even in a hot climate for he is thus exposed to the scorching of the sun and to sudden chills especially during wet weather. As Mr Wallace remarks, the natives in all countries are glad to protect their naked backs and shoulders with some slight covering. No one supposes that the nakedness of the skin is any direct advantage to man; his body therefore cannot have been divested of hair through natural selection. Nor as shown in a former chapter have we any evidence that this can be due to the direct action of climate or that it is the result of correlated development." This issue of human hairlessness was to become a riddle that Darwin would never resolve. It is true that he did submit another theory which he called sexual selection, which he believed resolved the problem, but the theory was not accepted in his day as a solution and it has since been discredited as a result of a series of rigorous science tests in recent years. No other evolutionist since has been able to resolve Darwin's Enigma, although it has not been for the want of trying. It is the objective of this book to take an honest look at all the theories proposed by Darwin and those who followed him to see if there is indeed a solution through a naturalist mechanism that could account for the anomaly of man's almost hairless condition. But if there is no solution that can be found, then we will have to face one unavoidable conclusion: Man did not evolve from a hairy ape-like ancestor as is claimed by evolutionists but had in fact been created naked and hairless through the activities of Intelligent agency. Isn't that what the book of Genesis

Sunderland,1992 *Where Darwin Meets the Bible* Larry Witham,2005 Where Darwin Meets the Bible provides an account of the lasting conflict between creationists and evolutionists *"The" Language of Science* Ilse Nina Bulhof,1992 In modern times science has avoided rhetorical and poetical forms Its hallmarks were brevity and exactitude with disdain for non functional ornamentation This book shows that the language of scientists does remain language and that a skillful use of its rhetorical and poetic aspects often determines the facts and the transmission of information The exceptional literary qualities of Darwin s *The Origin of Species* are taken as a point in case The importance of language in science has ontological implications science can no longer be considered an action performed by a speaking subject on a mute object Does the creative role of language in science mean that human beings create the world The author emphatically rejects a conclusion which would degrade nature to mere malleable material at the mercy of human beings A hermeneutical model for the relationship between knower and known is suggested creative interaction between reader and text The reader s responses actualise a text s meaning in like manner scientists give their responses to reality by actualising one of many possibilities The hermeneutical ontology proposed in this book steers away from the rocks of realism and anti realism *Irresistible Love* Joe White,2020-01-07 Irresistible Love will help you on your journey to draw closer to Jesus It s your invitation to hitchhike with an author who has spent decades counseling and encouraging millions of men women and students of all ages in their quest for intimacy inner peace purpose and fulfillment This book is full of fascinating stories of people finding the love of God and learning what it means to grow closer to God through hardship Read this book Watch your faith grow And fall deeper in love with Jesus than you ve ever dreamed possible **Darwin's Demise** Joe White,White Joe,Nicholas Comninellis,2001 For people confused by the contradictory messages they hear from secular science and church teaching evolution can be intimidating The truth is that Darwin s ideas are based upon faulty science and that creationists have solid evidence to support their claims Finally a brilliant defense of Genesis and the Bible s teaching about origins is waiting for those who are soon to understand how Darwinism is fraudulent faith masquerading as science Authors Joe White and Nicholas Comninellis have a passion for truth and for sharing it with students and their parents In Darwin s Demise they succeed in showing why real science is burning down the House of Darwin **Back to Darwin** Michael Anthony Corey,1994 Argues that the process of biological evolution is not only fully consistent with the existence of a Grand Designer but is unintelligible in the absence of one Considers the implausibility of non theistic evolution directed evolution a theological justification for evolution and the implications of deistic evolution for theology Paper edition unseen 37 Annotation copyright by Book News Inc Portland OR [Darwin's Pictures](#) Julia Voss,2010-06-15 Not only does Voss weave about these images a story on the development and presentation of Darwin s theory she also addresses the history of Victorian illustration the role of images in science the technologies of production and the relationship between specimen words and images Jacket *Secret Revelation* Steve Bell,2005-11 A violent impact with a car leaves Ellis Landis unconscious and bleeding on a dark

desert road and the driver is shocked to find the man naked with nothing more than a strange metal device clutched in his hands The device for some unexplainable reason meant everything After waking in the hospital Landis finds he has lost his memory As events continue to unfold around him he senses his life is in danger Doctor Elisha Sienna guided by sinister military forces tries to recover his memory and gain access to the earth shattering secret that is locked in his mind But she is not alone A radical terrorist group The Enigma wants their key holder back Again the word exploded in his mind Enigma it meant everything and nothing all at once The whole thing was an enigma a riddle he had to solve He was sure he was part of something bigger something important and that he and the device were at the heart of it While fleeing from a set of bizarre experiments and violent torture Ellis slowly recovers the dark secrets of his paranoid mind secrets that could mean the difference between life and death for all humankind
