Das Kapital A Novel Of Love And Money Markets:

Das Kapital Viken Berberian, 2007-06-05 Moving seamlessly between the financial skyscrapers of New York and the crisp blue skies of Corsica and Marseille *Das Kapital* is an extraordinary homage to Marx's seminal work for the twenty first century Wayne is the emblematic Wall Street trader opportunistic brash and driven His position is something of a rarity he bets against the market's rise gambling vast quantities of money on the short sell and profiting hugely from the collapse of entire economies and cultures in short from the dissolution of financial and social infrastructure on a global scale all from the remote comfort of his Gloomberg terminal To accomplish this Wayne enlists the aid of a cryptic Corsican whose own culture and identity are fast disappearing in the rise of a universal nationality one whose common language is email and whose treasured artifacts are zipped into slick JPEGs viewed only in thumbnail size Unbeknownst to them both men are involved with the same woman an architecture student named Alix who lives in Marseille But while she and the Corsican have a physical relationship it is the playfully erotic and strangely elusive email correspondence between Alix and Wayne that evokes both passion and tenderness Exquisitely written and infused with moments of irresistible humor *Das Kapital* is a riveting story about capitalism and love and the technology that controls them both *New Directions in Philosophy and Literature* David Rudrum, 2019-08-22 This forward thinking volume draws on new developments in philosophy including speculative realism object oriented ontology the new materialisms posthumanism analytic philosophy of language and metaphysics and ecophilosophy alongside close readings of a range of texts from the literary canon **The Encyclopedia of Contemporary American Fiction, 2 Volumes** Patrick O'Donnell, Stephen J. Contemporary World Narrative Fiction and the Spaces of Neoliberalism Michael K. Walonen, 2016-04-26 This book is a transnational study of how contemporary fiction writers from the United States and Canada to Nigeria to India to Dubai have conceptualized the emergent social spaces of the diverse corners of the neoliberal world system Over the span of the past three to four decades free market economic policies have been sold to or pushed upon every society on the globe in some way shape or form The upshot of this has been a world system structured in terms of a vast shift of power and resources from government to private enterprise dwindling civic life replaced by rising consumerism an emerging oligarchic rentier class large segments of population faced with meager material conditions of existence and few prospects of socio economic mobility and a looming sense of a near future dominated by further economic collapses and mounting social strife This book analyses a wide cultural array of some of the most poignant narrative engagements with neoliberalism in its various localized manifestations throughout the world **New York**, 2007 **The Writers Directory**, 2013 *Edinburgh Companion to Anthony Trollope* Frederik Van Dam, 2018-11-14 By bringing together leading Victorianists with a wide range of interests this innovative collection of essays involves the reader in new approaches to Trollope's work

Transnational Politics in the Post-9/11 Novel Joseph Conte, 2019-11-22 Transnational Politics in the Post 9 11 Novel suggests that literature after September 11 2001 reflects the shift from bilateral nation state politics to the multilateralism of transnational politics While much of the criticism regarding novels of 9 11 tends to approach these works through theories of personal and collective trauma this book argues for the evolution of a post 9 11 novel that pursues a transversal approach to global conflicts that are unlikely to be resolved without diverse peoples willing to set aside sectarian interests These novels embrace not only American writers such as Don DeLillo Dave Eggers Ken Kalfus Thomas Pynchon and Amy Waldman but also the countervailing perspectives of global novelists such as J M Coetzee Orhan Pamuk Mohsin Hamid and Laila Halaby These are not novels about terrorism nor do they seek comfort in the respectful cloak of national mourning Rather they are instances of the novel in terror which recognizes that everything having been changed after 9 11 only the formally inventive presentation will suffice to acknowledge the event's unrepresentability and its shock to the political order

From Wall Street to Main Street Judith Schulz, 2016-11-16 Since the financial crisis cannot be explained by looking at the numbers alone Judith Schulz investigates the diverse facets of the economic system including the emotional response and motivations of the actors It is precisely in this context that fiction can fill in the gaps in the understanding of the financial crisis and its cultural context Schulz analyses works of Don DeLillo Jess Walter and Martha McPhee to explore the complex and multifaceted interaction between culture and the economy These authors shed light on the impact of neoliberal economic

policies and create a dialogue on the highly controversial questions related to the financial crisis They point to the contradictions and paradoxes within American culture and show that there is a need to renegotiate issues of national identity and the American Dream *Re-Imagining Class* Michiel Rys,Liesbeth François,2024-05-20 Unique cross cultural and multimedial approach to class identity and precarity in literature theatre and film Contemporary culture not merely reflects ongoing societal transformations it shapes our understanding of rapidly evolving class realities Literature theatre and film urge us to put the question of class back on the agenda and reconceptualize it through the lens of precarity and intersectionality Relying on examples from British French Spanish German American Swedish and Taiwanese culture the contributors to this book document a variety of aesthetic strategies in an interdisciplinary dialogue with sociology and political theory Doing so this volume demonstrates the myriad ways in which culture opens up new pathways to imagine and re imagine class as an economic relation an identity category and a subjective experience Situated firmly within current debates about the impact of social mobility precarious work intersectional structures of exploitation and interspecies vulnerability this volume offers a wide ranging panorama of contemporary class imaginaries
