

THE ZIMMATIC DIFFERENCE

Expand your pivot options to increase water efficiency and maximize yield. Zimmatic offers durable parts, quality components and a wide range of tower structure heights to customize your pivot to best serve your field.

Uni-Knuckle Span Connector

This exclusive heavy-duty universal joint provides stress-free flexibility on slopes up to 30 percent. All components are mounted externally to eliminate flow restriction. The unit functions as a support between spans, permitting coupler and boot replacement without a crane.

Split Coupler

An exclusive Zimmatic design innovation, the split coupler encloses an inner boot that ensures a solid, watertight connection. The secure seal provides protection from the elements for longer machine life.

Tower Controls

Housed in a weather-tight enclosure, these ultra-reliable controls maintain machine alignment during operation. Suppressor circuits that guard against voltage irregularity, combined with rigorous testing, result in Zimmatics being known as some of the straightest running pivots in the industry.
