Chinese Communist Party Provincial Leaders:

Chinese Communist Party Provincial Leaders, 1973 *Chinese Communist Party Provincial Leaders* United States. Central Intelligence Agency, 1973 Routledge Handbook of the Chinese Communist Party Willy Wo-Lap Lam, 2017-08-18 Whilst the Chinese Communist Party is one of the most powerful political institutions in the world it is also one of the least understood due to the party's secrecy and tight control over the archives the press and the Internet Having governed the People's Republic of China for nearly 70 years though much interest remains into how this quintessentially Leninist party governs one fifth of the world and runs the world's second largest economy The Routledge Handbook of the Chinese Communist Party gives a comprehensive and multi-faceted picture of the party's traditions and values as well as its efforts to stay relevant in the twenty-first century It uses a wealth of contemporary data and qualitative analysis to explore the intriguing relationship between the party on the one hand and the government the legal and judicial establishment and the armed forces on the other Tracing the influence of Marx Engels Lenin and Stalin as well as Mao Zedong on contemporary leaders ranging from Deng Xiaoping and Jiang Zemin to Hu Jintao and Xi Jinping the sections cover the party's history and traditions how the party works and seeks to remain relevant major policy arenas the CCP in the twenty-first century The Routledge Handbook of the Chinese Communist Party will be of interest to students and scholars of Chinese Politics Asian Politics Political Parties and International Relations Go to <https://www.bookshop4u.com/lw1> to see Willy Lam introduce the book *Political Mobility of Chinese Regional Leaders* Liang Qiao, 2017-07-14 A monarch is usually born a member of parliament or a president is usually elected but a regional leader in China is usually orchestrated to replace his or her predecessor through an opaque process and for reasons not normally made public The professional trajectories of Chinese regional leaders are mysterious in many ways Their promotions and demotions can be predictable in terms of their age gender nationality education factions and previous engagements in the political system Yet speaking of their capability performance opportunities and arrangements their future can also be unexpected Such arrangements are always originated from the Organization Zuzhi which represents the Chinese Communist Party What are the factors the organization considers in order to make its final decisions on nominating and appointing a regional leader Today's regional leaders of China will very likely become the central leaders of China in the future By making an empirical analysis of Chinese regional leaders' political mobility Qiao establishes a descriptive political mobility model that reveals leadership trajectories in Chinese politics

Holding China Together Barry J. Naughton,Dali L. Yang,2004-07-26 Despite many predictions of collapse and disintegration China has managed to sustain unity and gain international stature since the Tiananmen crisis of 1989 Originally published in 2004 this volume addresses the fragmentation disintegration thesis and examines the sources and dynamics of China s resilience Through theoretically informed empirical studies the volume s authors look at key institutions for political integration and economic governance They also dissect how difficult policies to regulate economic and social life employment and migration population planning industrial adjustment and regional disparities are designed and implemented The authors show that China s leaders have retained authoritarian political institutions but have also reinforced and modified them constructing fresh ones in the light of changing circumstances Institutional and policy adaptations together have helped shore up political authority and create an environment for rapid growth while accommodating growing diversity

China's Road to Disaster: Mao, Central Politicians and Provincial Leaders in the Great Leap Forward, 1955-59 Frederick C Teiwes,Warren Sun,2016-07-01 This text analyzes the dramatic shifts in Chinese Communist Party economic policy during the mid to late 1950s which eventually resulted in 30 to 45 million deaths through starvation as a result of the failed policies of the Great Leap Forward Teiwes examines both the substance and the process of economic policy making in that period explaining how the rational policies of opposing rash advance in 1956 57 gave way to the fanciful policies of the Great Leap and assessing responsibility for the failure to adjust adequately those policies even as signs of disaster began to reach higher level decision makers In telling this story Teiwes focuses on key participants in the process throughout both rational and utopian phases Mao other

top leaders central economic bureaucracies and local party leaders The analysis rejects both of the existing influential explanations in the field the long dominant power politics approach focusing on alleged clashes within the top leadership and David Bachman s recent institutional interpretation of the origins of the Great Leap Instead this study presents a detailed picture of an exceptionally Mao dominated process where no other actor challenged his position where the boldest step any actor took was to try and influence his preferences and where the system in effect became paralyzed while Mao kept changing signals as disaster unfolded
