educational practices making *The Wiley Handbook of Teaching and Learning* an important book for the global education community and those planning on entering into it **Anthropogenic Aquifer Recharge** Robert G. Maliva, 2019-05-07 The book is an overview of the diversity of anthropogenic aquifer recharge AAR techniques that use aquifers to store and treat water. It focusses on the processes and the hydrogeological and geochemical factors that affect their performance. This book is written from an applied perspective with a focus of taking advantage of global historical experiences both positive and negative as a guide to future implementation. Most AAR techniques are now mature technologies in that they have been employed for some time; their scientific background is well understood and their initial operational challenges and associated solutions have been identified. However, opportunities exist for improved implementation and some recently employed and potential future innovations are presented. AAR which includes managed aquifer recharge (MAR) is a very important area of water resources management and there is no recent book that specifically and comprehensively addresses the subject.

Blue Metros, Red States David F. Damore, Robert E. Lang, Karen A. Danielsen, 2020-10-06 Assessing where the red blue political line lies in swing states and how it is shifting. Democratic-leaning urban areas in states that otherwise lean Republican is an increasingly important phenomenon in American politics, one that will help shape elections and policy for decades to come. *Blue Metros, Red States* explores this phenomenon by analyzing demographic trends, voting patterns, economic data, and social characteristics of twenty-seven major metropolitan areas in thirteen swing states that will ultimately decide who is elected president and the party that controls each chamber of Congress. The book's key finding is a sharp split between different types of suburbs in swing states. Close-in suburbs that support denser mixed-use projects and transit such as light rail mostly vote for Democrats. More distant suburbs that feature mainly large lot single-family detached houses and lack mass transit often vote for Republicans. The book locates the red blue dividing line and assesses the electoral state of play in every swing state. This red blue political line is rapidly shifting, however, as suburbs urbanize and grow more demographically diverse. *Blue Metros, Red States* is especially timely as the 2020 elections draw near. **Commerce**
