China Modern Nations Of The World:

New World Orderings Lisa Rofel, Carlos Rojas, 2022-11-09 The contributors to *New World Orderings* demonstrate that China's twenty-first century rise occurs not only through economics and state politics but equally through the mutual entanglements of overlapping social, economic and cultural worlds in Southeast Asia, Africa and Latin America. They show how the Chinese state has sought to reconfigure the nation's position in the world and the centrality of trade, labor, religion, migration, gender, race and literature to this reconfiguration. Among other topics, the contributors examine China's post-Bandung cultural diplomacy with African nations, how West African pastor-entrepreneurs in China interpreted and preached the prosperity doctrine, the diversity of Chinese Argentine social relations in the soy supply chain and the ties between China and India within the complex history of inter-Asian exchange and Chinese migration to Southeast Asia. By examining China's long historical relationship with the Global South, this volume presents a non-state-centric history of China that foregrounds the importance of transnational communicative and imaginative worldmaking processes and interactions. Contributors: Andrea Bachner, Luciano Damián Bolinaga, Nellie Chu, Rachel Cypher, Mingwei Huang, T. Tu Huynh, Yu-lin Lee, Ng Kim Chew, Lisa Rofel, Carlos Rojas, Shuang Shen, Derek Sheridan, Nicolai Volland. **Routledge Handbook on Global China** Maximilian Mayer, Emilian Kavalski, Marina Rudyak, Xin Zhang, 2024-10-22 This innovative Routledge Handbook sheds light on the complex and transformative nature of Global China, prompting a re-evaluation of existing theories on global and regional dynamics. It encourages theoretical innovation, methodological reflection and analytical transformation, providing new avenues for critical engagement with China's global interactions. The chapters propose three key commitments for the study of Global China: Advocating for diverse viewpoints and non-binary frameworks; employing nuanced analysis to understand Beijing's transnational relations and utilizing alternative methodological approaches to explore different trajectories for China in international affairs. The Handbook also identifies and avoids epistemic traps that hinder the understanding of Global China, such as othering and strategic narcissism. It suggests five analytical frameworks related to relationality, global capitalist processes, language and discourse, power, planetary scale modernization and experimentalism to guide future research. By adopting these frameworks, researchers can gain a deeper understanding of the multifaceted factors shaping Global China within the broader global context of cooperation, competition and crisis.
