Creative Engineering Design Assessment Christine Charyton,2013-09-14 The Creative Engineering Design Assessment or CEDA is a newly developed tool to assess creativity specific to engineering design which is vital for innovation The revised CEDA assesses usefulness in addition to originality Both originality and usefulness are key constructs in creativity but are primarily essential and

emphasized ever more in engineering design Since the preliminary research was presented to the National Science Foundation further reliability and validity has been developed and established The CEDA is different from other general creativity measures as it demonstrates discriminant validity with the Creative Personality Scale Creative Temperament Scale and the Cognitive Risk Tolerance Scale and has demonstrated convergent validity with the Purdue Creativity Test and the Purdue Spatial Visualization Test Rotations It focuses on engineering specific measures measuring engineering creativity and spatial skills The aim of this book is to disseminate the CEDA tool for use in engineering educational programs industry NASA and the military Creative Engineering Design Assessment CEDA Background Directions Manual Scoring Guide and Uses discusses and outlines the need for creativity in our global economy and in engineering design and provides the CEDA tool in effort to achieve this
