About the College Board

The College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, the College Board was created to expand access to higher education. Today, the membership association is made up of more than 5,900 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, the College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success — including the SAT[®] and the Advanced Placement Program[®]. The organization also serves the education community through research and advocacy on behalf of students, educators and schools.

For further information, visit www.collegeboard.org.

AP Equity and Access Policy

The College Board strongly encourages educators to make equitable access a guiding principle for their AP programs by giving all willing and academically prepared students the opportunity to participate in AP. We encourage the elimination of barriers that restrict access to AP for students from ethnic, racial and socioeconomic groups that have been traditionally underserved. Schools should make every effort to ensure their AP classes reflect the diversity of their student population. The College Board also believes that all students should have access to academically challenging course work before they enroll in AP classes, which can prepare them for AP success. It is only through a commitment to equitable preparation and access that true equity and excellence can be achieved.

Welcome to the AP[®] World History Course Planning and Pacing Guides

This guide is one of four Course Planning and Pacing Guides (CPPGs) designed for AP[®] World History (APWH) teachers. Each provides an exemplar of how to plan instruction for the AP course based on the author's academic year schedule, school location and type, and textbook choice. Each CPPG is authored by a current AP World History teacher familiar with the AP World History Curriculum Framework.

Each guide provides valuable suggestions regarding all aspects of teaching the course, including the selection of readings, the pace of instruction, instructional activities, and types of assessment. The authors have offered their suggestions — displayed in boxes that appear on the right side of the page — to aid in course planning for AP World History teachers. These tips are intended to provide insight into the why and how behind the author's instructional choices.

Each CPPG also highlights how the different components of the AP World History Curriculum Framework — the key concepts, course themes, and historical thinking skills — are taught over the course of the year. The CPPGs are designed to demonstrate how to successfully teach the AP World History Curriculum Framework by sharing the author's approach to instruction and student assessment.
