Conversion in English

Sándor Mártsa, 2014-07-18 Drawing on the conceptual metaphor and metonymy theory outlined in works by George Lakoff Ren Dirven G nter Radden and Zolt n K vecses Conversion in English A Cognitive Semantic Approach proposes that the process of conversion in contemporary English is basically a semantic process underlain by a series of conceptual metonymic and metaphoric mappings In the book previous interpretations treating conversion as zero derivation derivation by a zero

affix or as syntactically motivated recategorization or as usage based coinage relisting are questioned for they apparently mistake the effect of conversion the obligatory change of word class for its cause the conceptual reanalysis of extralinguistic reality The book also demonstrates that viewing conversion as the result of conceptual mappings makes it possible to view this process as an instantiation of intercategoryal polysemy It also helps to settle the long standing debate concerning the issues of directionality and productivity of conversion
