Das Deutsche Kaiserreich Gerd Fesser:

Rethinking the Age of Emancipation Martin Baumeister, Philipp Lenhard, Ruth Nattermann, 2020-03-20 Since the end of the nineteenth century traditional historiography has emphasized the similarities between Italy and Germany as late nations including the parallel roles of great men such as Bismarck and Cavour *Rethinking the Age of Emancipation* aims at a critical reassessment of the development of these two late nations from a new and transnational perspective Essays by an international and interdisciplinary group of scholars examine the discursive relationships among nationalism war and emancipation as well as the ambiguous roles of historical protagonists with competing national political and religious loyalties

Friedrich Rosen Amir Theilhaber, 2020-09-07 The German lacuna in Edward Said's Orientalism has produced varied studies of German cultural and academic Orientalisms So far the domains of German politics and scholarship have not been conflated to probe the central power knowledge nexus of Said's argument Seeking to fill this gap the diplomatic career and scholarly literary productions of the centrally placed Friedrich Rosen serve as a focal point to investigate how politics influenced knowledge generated about the Orient and charts the roles knowledge played in political decision making regarding extra European regions This is pursued through analyses of Germans in British imperialist contexts cultures of lowly diplomatic encounters in Middle Eastern cities Persian poetry in translation prestigious Orientalist congresses in northern climes leveraging knowledge in high stakes diplomatic encounters and the making of Germany's Islam policy up to the Great War Politics drew on bodies of knowledge and could promote or hinder scholarship Yet scholars never systemically followed empire in its tracks but sought their own paths to cognition On their own terms or influenced by Oriental savants they aligned with politics or challenged claims to conquest and rule

Transnational Histories of the 'Royal Nation' Milinda Banerjee, Charlotte Backerra, Cathleen Sarti, 2017-04-27 This book challenges existing accounts of the nineteenth and twentieth centuries in which political developments are explained in terms of the rise of the nation state While monarchies are often portrayed as old fashioned as things of the past we argue that modern monarchies have been at the centre of nation construction in many parts of the world Today roughly a quarter of states define themselves as monarchies as well as nation states they are Royal Nations This is a global phenomenon This volume interrogates the relationship between royals and their nations with transnational case studies from Asia Africa Europe as well as South America The seventeen contributors discuss concepts and structures visual and performative representations and memory cultures of modern monarchies in relation to rising nationalist movements This book thereby analyses the worldwide significance of the Royal Nation

Germany's Second Reich James Retallack, 2015-07-06 Despite recent studies of imperial Germany that emphasize the empire's modern and reformist qualities the question remains to what extent could democracy have flourished in Germany's stony soil In Germany's Second Reich James Retallack continues his career long inquiry into the era of Bismarck and Kaiser Wilhelm II with a wide ranging reassessment of the period and its connections with past traditions and future possibilities In this volume

Retallack reveals the complex and contradictory nature of the Second Reich presenting Imperial Germany as it was seen by outsiders and insiders as well as by historians political scientists and sociologists ever since *Imperial Germany 1871-1918*
