Construction Cost Analysis and Estimating Phillip Ostwald, 2000-01 Engineering Economics of Life Cycle Cost Analysis John Vail Farr, Isaac J. Faber, 2018-10-17 Engineering has changed dramatically in the last century With modern computing systems instantaneous communication elimination of low mid management increased complexity and extremely efficient supply chains all have dramatically affected the responsibilities of engineers at all levels The future will require cost effective systems that are more secure interconnected software centric and complex Employees at all levels need to be able to develop accurate cost estimates based upon defensible cost analysis It is under this backdrop that this book is being written By presenting the methods processes and tools needed to conduct cost analysis estimation and management of complex systems this textbook is the next step beyond basic engineering economics Features Focuses on systems life cycle costing Includes materials beyond basic engineering economics such as simulation based costing Presents cost estimating analysis and management from a total ownership cost perspective Offers numerous real life examples Provides excel based

textbook problems Offers PowerPoint slides Solutions Manual and author website with downloadable excel solutions etc

Product Platform and Product Family Design Timothy W. Simpson,Zahed Siddique,Roger Jianxin Jiao,2006-03-20
Designing products and product families so they may be customized for the global marketplace and achieving these goals in abbreviated time period while maintaining production efficiencies are the keys to successful manufacturing operations The research on these areas has matured rapidly over the last decade Today s highly competitive and volatile marketplace is reshaping the way many companies do business as rapid innovation and mass customization offer a new form of competitive advantage In response companies like Sony Black and Decker and Kodak have successfully implemented strategies to design and develop an entire family of products to satisfy a wide variety of customer requirements Product Platform and Product Family Design Methods and Applications discusses how product platform and product family design can be used successfully to increase variety within a product line shorten manufacturing lead times reduce overall costs within a product line The material available here will serve as both a reference and a hands on guide for practitioners involved in the design planning and production of products Included are real life case studies that explain the benefits of platform based product development

Cost Engineering Health Check Dale Shermon,Mark Gilmour,2016-11-03 High quality cost estimating gives a business leader confidence to make rational financial decisions Whether you are a business leader or a cost estimating manager you have a vested interest in understanding whether you can depend on your organisation s ability to generate accurate cost forecasts and estimates But how can business leaders have confidence that the cost information that they are being provided with is of high quality How can a cost estimating manager be sure that their team is providing high quality cost information QinetiQ s Cost Engineering Health Check is used as a capability benchmarking tool to identify improvement opportunities within their clients cost estimating capability enabling them to focus on areas that have the potential to increase their competitiveness High quality estimating leads to accurate budgets a reduced potential for cost growth accurate evaluation of risk exposure and the opportunity to implement effective earned value management EVM The Cost Engineering Health Check employs a standardised competency framework that considers all aspects of cost estimating capability and provides an objective assessment against both best practice and the industry standard This framework is based on QinetiQ s long established tried and tested Knowledge Based Estimating KBE philosophy comprising Data Tools People and Process with additional consideration given to cultural and stakeholder assessments
