The Coming Race Edward Bulwer, Edward Bulwer Lytton Lytton, Baron, 2014-05-23 The Coming Race Vril the Power of the Coming Race by Edward Bulwer Vril the Power of the Coming Race is an 1871 novel by Edward Bulwer Lytton originally printed as The Coming Race Among its readers have been those who have believed that its account of a superior subterranean master race and the energy form called Vril is accurate to the extent that some theosophists notably Helena Blavatsky William Scott Elliot and Rudolf Steiner accepted the book as being at least in part based on occult truth A popular book The Morning of the Magicians 1960 suggested that a secret Vril Society existed in pre Nazi Berlin However there is no historical evidence for the existence of such a society The Coming Race was originally published anonymously in

late 1871 but Bulwer Lytton was known to be the author Samuel Butler's *Erewhon* was also published anonymously in March 1872 and Butler suspected that its initial success was due to it being taken by many as a sequel by Bulwer Lytton to *The Coming Race*. When it was revealed in the 25 May 1872 edition of the *Athenaeum* that Butler was the author sales dropped by 90 percent because he was unknown at the time. The novel centres on a young independently wealthy traveller the narrator who accidentally finds his way into a subterranean world occupied by beings who seem to resemble angels and call themselves Vril-ya. The hero soon discovers that the Vril-ya are descendants of an antediluvian civilisation who live in networks of subterranean caverns linked by tunnels. It is a technologically supported Utopia chief among their tools being the all permeating fluid called Vril a latent source of energy which its spiritually elevated hosts are able to master through training of their will to a degree which depends upon their hereditary constitution giving them access to an extraordinary force that can be controlled at will. The powers of the will include the ability to heal change and destroy beings and things the destructive powers in particular are awesomely powerful allowing a few young Vril-ya children to wipe out entire cities if necessary. It is also suggested that the Vril-ya are fully telepathic. The narrator states that in time the Vril-ya will run out of habitable spaces underground and start claiming the surface of the Earth destroying mankind in the process if necessary.
