Arts Management Carla Walter, 2015-05-22 Arts Management is designed as an upper division undergraduate and graduate level text that covers the principles of arts management. It is the most comprehensive up to date and technologically advanced textbook on arts management on the market. While the book does include the background necessary for understanding the global arts marketplace, it assumes that cultural fine arts come to fruition through entrepreneurial processes and that cultural fine arts organizations have to be entrepreneurial to thrive. Many cases and examples of successful arts organizations from the United States and abroad appear in every chapter. A singular strength of Arts Management is the author's skilful use of in-text tools to facilitate reader interest and engagement. These include learning objectives, chapter summaries, discussion questions and exercises, case studies and numerous examples and cultural spotlights. Online instructor's materials with PowerPoints are available to adopters. Restoring the Five-Fold Ministry 2nd Edition Hartwell Paul Davis, 2020-01-10 The church represents the largest organization in the world covering all nations, all cultures and millions of members. Church leadership like leadership in any organizations is of vital importance. However the difference is that Jesus's model of leadership and use of power and authority can be different from leadership in the world of business. The differences between the fivefold ministry gifts and the leadership of elders and deacons are often misunderstood and the changing nature of church leadership from biblical roots has resulted in several forms of maladaptive leadership in the church today, the most common being the rise of the pastoral supremacy syndrome where the focus on the pastoral gift has effectively destroyed the fivefold ministry intended to be God's leadership design. This book is about leadership specifically about leadership in God's church.
