Principals of Management Dr. Janak Singh Kushwah, management is essential to any organization that wishes to be efficient and achieve its aims Without someone in a position of authority there would be organizational anarchy with no structure and very little if any focus It has been said that management has four basic functions planning organizing leading and controlling Common sense dictates that without these principles of management being in place an organization would have trouble achieving its aims or even coming up with aims in the first place A Classic theory on the principles of management was written by Henri Fayol It seeks to divide management into 14 Principles We'll take a look at these basic principles of management and explain them in easy to understand terminology

TEMPLE MANAGEMENT IN THE ?GAMA-S Dr. Deepa Duraiswamy, 2021-02-21 For at least 1500 years temple design construction and worship have followed the canon of the Gama s Shouldn't temple management also follow the Gama s Steeped in a history of more than two millennia the real

bequest of India's ancient temples is that they are still living sacred spaces. The gods that were invoked in these temples more than a thousand years ago continue to reside in the sanctums and gaze benevolently upon their devotees. The bells ring for morning service as they did a thousand years ago. The carya waves the rati just as another carya did a thousand years ago. No other organization in the world can boast of such amazing continuity. The secret to this longevity lies in the gamas. Gamas are the traditional canon believed to be as old as the Vedas with detailed manuals on temple building, consecration, and ritual worship. While the world outside the temples, a world of kings and kingdoms, has changed, temples continue to follow the gamas in letter and spirit in their everyday religious function notwithstanding the many changes in administrative formats. By studying the activities of the temple, material and manpower required, qualifications and roles prescribed for the temple professionals, this thesis attempts to reconstruct an gamic temple management framework using the Krikya gamas as primary text with other gamas, secondary literature, and inscriptional evidence as required.
