Women's Movements in Asia Mina Roces, Louise Edwards, 2010-06-10 Women's Movements in Asia is a comprehensive study of women's activism across Asia. With chapters written by leading international experts, it provides a full overview of the history of feminism as well as the current context of the women's movement in 12 countries: the Philippines, China, Indonesia, Japan, Burma, Singapore, Vietnam, Malaysia, Thailand, Cambodia, Hong Kong, Korea, India, and Pakistan. For each of these countries, the manner in which feminism changes according to cultural, political, economic, and religious factors is explored. The contributors investigate how national feminisms are influenced by transnational factors such as the women's movements in other countries, colonialism, and international agencies. Each chapter also considers what Asian feminists have contributed to global theoretical debates on the woman question, the key successes and failures of the movements, and what needs to be addressed in the future. This breadth of coverage, together with suggestions for further reading and watching and an integrated cross-national timeline, makes *Women's Movements in Asia* ideal for use on courses looking at women and feminism in Asia. It will appeal both to students and specialists in the fields of gender, women's, and Asian studies.

Nirbhaya, New Media and Digital Gender Activism Adrija Dey, 2018-08-23 Using the 2012 Delhi Nirbhaya rape case as a case study and keeping gender discourses at its core, this book explores the use of digital media for gender activism in India, demonstrating how it has formed an alternate platform for dissent. **Yearbook of International Organizations**

2014-2015 (Volume 4) Union of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non-profit international organizations currently available. Detailed profiles of international non-governmental and intergovernmental organizations (IGOs) collected and documented by the Union of International Associations can be found here. In addition to the history, aims, and activities of international organizations, with their events, publications, and contact details, the volumes of the Yearbook include networks between associations, biographies of key people involved, and extensive statistical data. Providing both an international organizations and research bibliography, Volume 4 cites over 46,000 publications and information resources supplied by international organizations and provides nearly 18,000 research citations under 40 subject headings. This volume also includes a research bibliography on international organizations and transnational associations. *Political Worlds of Women, Student Economy*

Edition Mary Hawkesworth, 2018-04-19 This book examines female engagement in both traditional and unconventional political arenas, including female sociability, salons, child-rearing, and education, health, consumption, religious reform, and nationalism. **Digital Femininities** Frankie Rogan, 2022-07-01 *Digital Femininities: The Gendered Construction of Cultural and Political Identities Online* examines the role of new media technologies in the production of girls' cultural and political identities. The book argues that the varied and complex spaces which make up our social media should be conceptualised as important terrains upon which neoliberal and postfeminist subjectivities can be both reproduced and subverted. In doing so

the book explores many key issues underpinning current debates around gender politics and digital media including gendered spatial politics visibility surveillance and regulation beauty politics and civic and political engagement and activism Over the last decade the position of girls and young women within the digital landscape of social media has been a topic of much debate On the one hand girls social media practices are presented as a key site of concern wherein new digital technologies are said to have produced an intensification of individualised neoliberal and postfeminist identities Conversely others have championed access to social media for young people as a potentially useful political tool enabling previously marginalised political subjects such as girls to access and participate within new and exciting political cultures Locating itself at the intersection of these two approaches this book offers a fresh contribution to these debates Based upon the findings from focus groups with girls and young women aged between 12 and 18 in England the book offers an in depth analysis of the digital cultures that emerged from the study This timely book will be essential reading for anyone interested in contemporary femininity and feminism and the role of digital media in the production of cultural political and gendered identities [alternative press index](#) ALTERNATIVE PRESS INDEX,2002
