Chaosophy, New Edition Felix Guattari, 2008-11-14 The texts and interviews collected in Chaosophy were written in the wake of May 68 They elaborate on the groundbreaking theories of capitalism and schizophrenia that Felix Guattari introduced with Gilles Deleuze in *Anti Oedipus* in 1972 one of the most important books of our time Boldly rewriting Marx's vision of capitalism in terms of schizophrenic flows Guattari substituted the Freudian interpretation of neurosis with the model of schizoanalysis advocating a more pragmatic experimental and collective approach to mental phenomena that opened the way to a micropolitical subversion of the capitalist system **BOOK JACKET** Why Guattari? A Liberation of Cartographies, Ecologies and Politics Thomas Jellis, Joe Gerlach, John-David Dewsbury, 2019-05-13 This book examines Felix Guattari the French psychoanalyst philosopher and radical activist renowned for an energetic style of thought that cuts across conceptual political and institutional spheres Increasingly recognised as a key figure in his own right Guattari's influence in contemporary social theory and the modern social sciences continues to grow From the ecosophy of hurricanes to the micropolitics of cinema the book draws together a series of Guattarian motifs which animate the complexity of one of the twentieth century's greatest and most enigmatic thinkers The book examines techniques and modes of thought that contribute to a liberation of thinking and subjectivity Divided thematically into three parts cartographies ecologies and micropolitics each chapter showcases the singular and pragmatic grounds by which Guattari's signature concepts can be found to be both disruptive to traditional modes of thinking and generative toward novel forms of ethics politics and sociality This interdisciplinary compendium on Guattari's exciting experimental and enigmatic thought will appeal to academics and postgraduates within Social Theory Human Geography and Continental Philosophy Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Architecture After Deleuze and Guattari Chris L. Smith, 2023-05-04 This study illuminates the complex interplay between Deleuze and Guattari's philosophy and architecture Presenting their wide ranging impact on late 20th and 21st century architecture each chapter focuses on a core Deleuzian Guattarian philosophical concept and one key work of architecture which evokes contorts or extends it Challenging the idea that a concept or theory defines and then produces the physical work and not vice versa Chris L. Smith positions the relationship between Deleuze and Guattari's philosophy and the field of architecture as one that is mutually substantiating and constitutive In this framework modes of architectural production and experimentation become inextricable from the conceptual territories defined by these two key thinkers producing a rigorous discussion of theoretical practical and experimental engagements with their ideas

Guattari Beyond Deleuze Carlos A. Segovia, 2024-11-08 This book argues that by virtue of his original and ongoing contribution to ontology and modal philosophy from the texts gathered in *Psychanalysis and Transversality* to the unpublished manuscript notes for *What Is Philosophy* Guattari is to be acknowledged a philosopher in his own right

independently from Deleuze Furthermore it looks back and forth beyond Anti Oedipus and contends that Guattari s major writings gradually supplement deterritorialization with determinability Accordingly it offers a new interpretation of the nuanced development of Guattari s philosophical thought which it proposes to define as constructivist rather than post structuralist Additionally it explores the innovative responses that Guattari s philosophy supplies to various contemporary philosophical debates like those on accelerationism indeterminacy compossibility and worlding Finally it examines the differences that upon a careful cross reading of their earliest texts including The Anti Oedipus Papers and Difference and Repetition must be drawn between Guattari s constructivism and Deleuze s sacrificial philosophy *Deleuze, Guattari and the Schizoanalysis of Postmedia* Joff P. N. Bradley,Alex Taek-Gwang Lee,Manoj N.Y.,2023-01-12 Is the self or subject discontinuous across technological platforms Do technological developments increase inequality and exploitation Is the new media landscape creating a dangerous distraction from the climate crisis Connecting the work of critical postmedia studies to Deleuze and Guattari s concept of schizoanalysis this book marks a bifurcatory shift in the radical theory on technology A range of critical perspectives are explored by international authors who engage with ecology ecosophy climate change the postmedia condition and the Anthropocene Answering the above questions editors Joff P N Bradley Alex Taek Gwang Lee and Manoj N Y frame the volume s chapters as urgent responses to unbridled technological advance and impending climate disaster Using ecological philosophy as a core focus the volume analyses new media technologies of the self the power of algorithms and technologies of resistance to outline a materialist paradigm capable of addressing crises across the cultural biological and informational spheres Through contesting economies built on desire and destruction and questioning the infiltration of capitalism in all of its spheres of negative influence the editors review recent technological developments in light of Deleuze and Guattari s earlier seminal theories to make bold new connections and critiques in the study of media philosophy and the environment **Neither Vertical Nor Horizontal** Rodrigo Nunes,2021-05-25 How do we organize in a world after both Occupy and the Sanders campaign A decade ago a wave of mass mobilisations described as horizontal and leaderless swept the planet holding the promise of real democracy and justice for the 99% Many saw its subsequent ebb as proof of the need to go back to what was once called the question of organisation For something so often described as essential however political organisation remains a surprisingly under theorised field In this book Rodrigo Nunes proposes to remedy that lack by starting again from scratch Redefining the terms of the problem he rejects the confusion between organisation and any of the forms it can take such as the party and argues that organisation must be understood as always supposing a diverse ecology of different initiatives and organisational forms Drawing from a wide array of sources and traditions that include cybernetics poststructuralism network theory and Marxism Nunes develops a grammar that eschews easy oppositions between verticalism and horizontalism centralisation and dispersion and offers a fresh approach to enduring issues like spontaneity leadership democracy strategy populism revolution and the relationship between movements and

parties **Disaster Nationalism** Richard Seymour, 2025-10-28 Liberal civilisation is in crisis now is a time of monsters While the spotlight often shines on the actions of charismatic right wing leaders such as Donald Trump and Jair Bolsonaro defeating these people will not stem the tide behind them They are the embodiment of profound forces that are rarely understood With meticulous analysis and compelling storytelling Richard Seymour delves into the ideologies fueling the contemporary right and distorting modern politics into something abhorrent and nihilistic The battle against disaster nationalism is not just political it is a struggle for our collective soul and the future of civilization **Generosity and**

Architecture Mhairi McVicar, Stephen Kite, Charles Drozynski, 2022-09-28 This book proposes that architecture can function as a true embodiment of generosity and examines how generosity in architecture operates within and questions current and historical socio economic and political systems As such it interrogates ways in which architecture aspires for something more whether within economic austerities or within historic contexts of a discipline that has often been preoccupied with cost and quantitative measurement The texts presented in this book critically examine the theme of generosity and architecture from a variety of perspectives addressing the theoretical the historical and the everyday processes of architectural practice procurement and policy in a global context The book is a richly collaborative text which explores how architecture in its processes of ordering and shaping space can represent and embody generosity in all its multi faceted potential **Bare**

Architecture Chris L. Smith, 2017-10-19 Bare Architecture a schizoanalysis is a poststructural exploration of the interface between architecture and the body Chris L Smith skilfully introduces and explains numerous concepts drawn from poststructural philosophy to explore the manner by which the architecture body relation may be rethought in the 21st century Multiple well known figures in the discourses of poststructuralism are invoked Gilles Deleuze and Félix Guattari Roland Barthes Georges Bataille Maurice Blanchot Jorge Luis Borges and Michel Serres These figures bring into view the philosophical frame in which the body is formulated Alongside the philosophy the architecture that Smith comes to refer to as bare architecture is explored Smith considers architecture as a complex construction and the book draws upon literature art and music to provide a critique of the limits extents and opportunities for architecture itself The book considers key works from the architects Douglas Darden Georges Pingusson Lacatan and Vassal Carlo Scarpa Peter Zumthor Marco Casagrande and Sami Rintala and Raumlabor Such works are engaged for their capacities to foster a rethinking of the relation between architecture and the body **Posthuman Subjectivity in the Novels of J.G. Ballard** Carolyn Lau, 2023-07-28 This book

proposes that Ballard's novels extrapolate the formation of a posthuman subjectivity that is centred around an affirmative understanding of what a human body can do This new subjectivity transforms constraints and prescribed desires into creative openings in a hyper mediated control society that conditions docile bodies through technology and consumerism Set in surrealist predicaments in postwar affluent Western societies Ballard's novels remind us of the fragile veneer of order in the familiar every day In these moments of crisis complacent characters are compelled to undergo a process of

defamiliarisation and transformation of their understanding of the self and the body The ability to form new relationships with the unfamiliar is imperative to survival in a hostile environment Ballard delineates both the possibilities and obstacles of forming these relationships In particular the author attributes the failure to do so to the irreconcilable contradictions of late capitalism
