Communication Systems and Networks Subir Biswas, Animesh Mukherjee, Mun Choon Chan, Sandip Chakraborty, Abhinav Kumar, Giridhar Mandyam, Rajeev Shorey, 2019-01-16 This book constitutes the refereed proceedings of the 10th International Conference on Communication Systems and Networks COMSNETS 2018 held in Banaglore India in January 2018 The 12 revised full papers presented in this book were carefully reviewed and selected from 134 submissions They cover various topics in networking and communications systems

Global Trends in Intelligent Computing Research and Development Tripathy, B.K., Acharjya, D. P., 2013-12-31 As the amount of accumulated data across a variety of fields becomes harder to maintain it is essential for a new generation of computational theories and tools to assist humans in extracting knowledge from this rapidly growing digital data Global Trends in Intelligent Computing Research and Development brings together recent advances and in depth knowledge in the fields of knowledge representation and computational intelligence Highlighting the theoretical advances and their applications to real life problems this book is an essential tool for researchers lecturers professors students and developers who have seek insight into knowledge representation and real life applications

Artificial Intelligence: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2016-12-12 Ongoing advancements in modern technology have led to significant developments in artificial intelligence With the numerous applications available it becomes imperative to conduct research and make further progress in this field Artificial Intelligence Concepts Methodologies Tools and Applications provides a comprehensive overview of the latest breakthroughs and recent progress in artificial intelligence Highlighting relevant technologies uses and techniques across various industries and settings this publication is a pivotal reference source for researchers professionals academics upper level students and practitioners interested in emerging perspectives in the field of artificial intelligence

Intelligent and Fuzzy Systems Cengiz Kahraman, Sezi Cevik Onar, Selcuk Cebi, Basar Oztaysi, A. Cagri Tolga, Irem Ucal Sari, 2024-08-29 This book presents recent research in intelligent and fuzzy techniques on Intelligent Industrial Informatics and Efficient Networks This cutting edge field integrates advanced technologies such as artificial intelligence machine learning and data analytics into industrial processes revolutionizing the way industries operate The book presents the examples of the implementation of smart sensors and IoT devices which facilitate real time data collection and communication High speed low latency networks ensure that information flows effortlessly between devices enabling timely responses and enabling the coordination of complex manufacturing processes This network architecture supports the integration of edge computing where data processing occurs closer to the source reducing latency and enabling faster decision making The readers can benefit from this book for maintaining a leadership position among competitors in both manufacturing and service companies The intended readers are intelligent and fuzzy systems researchers lecturers M Sc and Ph D students studying intelligent and fuzzy techniques The book covers fuzzy logic theory and applications heuristics

and metaheuristics from optimization to machine learning from quality management to risk management making the book an excellent source for researchers Proceeding of 2021 International Conference on Wireless Communications, Networking and Applications Zhihong Qian,M.A. Jabbar,Xiaolong Li,2022-07-12 This open access proceedings includes original unpublished peer reviewed research papers from the International Conference on Wireless Communications Networking and Applications WCNA2021 held in Berlin Germany on December 17 19th 2021 The topics covered include but are not limited to wireless communications networking and applications The papers showcased here share the latest findings on methodologies algorithms and applications in communication and network making the book a valuable asset for professors researchers engineers and university students alike This is an open access book **Proceedings of the 2017 Joint Workshop of Fraunhofer IOSB and Institute for Anthropomatics, Vision and Fusion Laboratory** Beyerer, Juergen,Pak, Alexey,Taphanel, Miro,2018-08-13 *Proceedings of the Future Technologies Conference (FTC) 2019* Kohei Arai,Rahul Bhatia,Supriya Kapoor,2019-10-12 This book presents state of the art intelligent methods and techniques for solving real world problems and offers a vision of future research Featuring 143 papers from the 4th Future Technologies Conference held in San Francisco USA in 2019 it covers a wide range of important topics including but not limited to computing electronics artificial intelligence robotics security and communications and their applications to the real world As such it is an interesting exciting and inspiring read **Research Anthology on Machine Learning Techniques, Methods, and Applications** Management Association, Information Resources,2022-05-13 Machine learning continues to have myriad applications across industries and fields To ensure this technology is utilized appropriately and to its full potential organizations must better understand exactly how and where it can be adapted Further study on the applications of machine learning is required to discover its best practices challenges and strategies The Research Anthology on Machine Learning Techniques Methods and Applications provides a thorough consideration of the innovative and emerging research within the area of machine learning The book discusses how the technology has been used in the past as well as potential ways it can be used in the future to ensure industries continue to develop and grow Covering a range of topics such as artificial intelligence deep learning cybersecurity and robotics this major reference work is ideal for computer scientists managers researchers scholars practitioners academicians instructors and students **Feature Selection and Enhanced Krill Herd Algorithm for Text Document Clustering** Laith Mohammad Qasim Abualigah,2018-12-18 This book puts forward a new method for solving the text document TD clustering problem which is established in two main stages i A new feature selection method based on a particle swarm optimization algorithm with a novel weighting scheme is proposed as well as a detailed dimension reduction technique in order to obtain a new subset of more informative features with low dimensional space This new subset is subsequently used to improve the performance of the text clustering TC algorithm and reduce its computation time The k mean clustering algorithm is used to evaluate the effectiveness of the obtained subsets ii Four krill herd algorithms KHAs

namely the a basic KHA b modified KHA c hybrid KHA and d multi objective hybrid KHA are proposed to solve the TC problem each algorithm represents an incremental improvement on its predecessor For the evaluation process seven benchmark text datasets are used with different characterizations and complexities Text document TD clustering is a new trend in text mining in which the TDs are separated into several coherent clusters where all documents in the same cluster are similar The findings presented here confirm that the proposed methods and algorithms delivered the best results in comparison with other similar methods to be found in the literature

International Conference on Innovative Computing and Communications Deepak Gupta,Ashish Khanna,Aboul Ella Hassanien,Sameer Anand,Ajay Jaiswal,2022-11-07 This book includes high quality research papers presented at the Fifth International Conference on Innovative Computing and Communication ICICC 2022 which is held at the Shaheed Sukhdev College of Business Studies University of Delhi Delhi India on February 19 20 2022 Introducing the innovative works of scientists professors research scholars students and industrial experts in the field of computing and communication the book promotes the transformation of fundamental research into institutional and industrialized research and the conversion of applied exploration into real time applications

Data Mining The 2013 Worldcomp International Conference Proceedings: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Data Mining The 2013 Worldcomp International Conference Proceedings : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
