Activities with Words Eric Amen, 2008 Preparing Teachers for Deeper Learning at San Francisco Teacher Residency Tara Kini, Steven K. Wojcikiewicz, 2019-05-28 The San Francisco Teacher Residency case is one of seven that form the basis for the arguments and analyses presented in *Preparing Teachers for Deeper Learning*. Each case outlines the context, vision and practices guiding a particular program's enactment and includes sample curricula, assessment and feedback forms and the program details that have contributed to its success. The cases are valuable reading for educators involved in developing teacher candidates who are self-directed, collaborative, social justice focused and prepared to meet the needs of today's students and a changing society.

Multilingual Computer Assisted Language Learning Judith Buendgens-Kosten, Daniela Elsner, 2018-08-09 Recent developments in education such as the increasing linguistic diversity in school populations and the digital revolution which has led to new ways of being, learning and socialising have brought about fresh challenges and opportunities. In response, this book shows how technology enriches multilingual language learning as well as how multilingual practices enrich computer-assisted language learning (CALL) by bringing together two thus far distinct fields of research: CALL and multilingual approaches to language learning. The collection includes contributions from researchers and practitioners from three continents to illustrate how native languages, previously studied languages, heritage languages or dialects are activated through technology in formal and informal learning situations. The studies in this book showcase multilingual language use in chat rooms, computer games, digital stories, ebook apps, online texts and telecollaboration, virtual exchange via interactive whiteboards. This volume will be of interest to researchers interested in language learning and teaching and to practitioners looking for support in seizing the opportunities presented by the multilingual digital classroom.

Preparing Teachers for Deeper Learning Linda Darling-Hammond, Jeannie Oakes, 2021-02-08 *Preparing Teachers for Deeper Learning* answers an urgent call for teachers who educate children from diverse backgrounds to meet the demands of a changing world. In today's knowledge economy, teachers must prioritize problem-solving ability, adaptability, critical thinking and the development of interpersonal and collaborative skills over rote memorization and the passive transmission of knowledge. Authors Linda Darling-Hammond and Jeannie Oakes and their colleagues examine what this means for teacher preparation and showcase the work of programs that are educating for deeper learning, equity and social justice. Guided by the growing knowledge base in the science of learning and development, the book examines teacher preparation programs at Alverno College, Bank Street College of Education, High Tech High's Intern Program, Montclair State University, San Francisco Teacher Residency, Trinity University and University of Colorado Denver. These seven programs share a common understanding of how people learn that shape similar innovative practices. With vivid examples of teaching for deeper learning in coursework and classrooms, interviews with faculty, school partners and novice teachers, surveys of teacher candidates and graduates and analyses of curriculum and practices, *Preparing*
